March 3, 1947

TO: V.O. REMINGTON
 FROM: E.A. WILLIAMS
 SUBJECT: N/VAL ESTIMATE - REVISION ESTIMATE 107-17
 Reference: Letter Williams, February 28, 1947

We are in receipt of the reference letter concerning the revised estimate for the N/VAL rifle.

It is noted that the letter contains the statement that the plant Methods & Standards Department has now confirmed the N/VAL estimate. Apparently this statement is a typographical error which probably was intended to read "has not confirmed" the estimate.

Up to this date the Section has not received the Technical Department estimate of N/VAL costs in detail and, therefore, is not in a position to confirm such an estimate.

E.A. Williams, Superintendent
 Methods & Standards Section
