FROM: J. L. Pinckney
SUBJECT: FRONT SIGHT RAMP ON MODEL 722 RIFLE -
222 REM. CALIBER

In view of the facts mentioned in your letter of June 7, I have no objection whatever to your using the mechanically attached front sight ramp on the Model 722 rifle, 222 caliber, particularly since it will improve the inherent accuracy.

As a matter of fact, I think this should be done just as quickly as possible, it being understood that it will have no effect on the appearance of the rifle.
