

Roy Kuhn 40X #4

\*Loading platform very poor  
Comb too thick for Iron Sights  
Comb O.K. for scope  
Muzzle seems heavy  
Grip too close to trigger or grip is too thin.  
Do not like rim on fore arm stop.  
Barrel should be counter bored like 37.  
Should leave off scope block rear of receiver and put  
in plug screws.  
We should use higher sight base for front Olympic  
  
Trigger good  
No slip butt plate good
