

(9) M/870 Autoloading Shotgun (See Photo Plate VII)

Specifications

Only 2 more parts than M/870 (81 vs. 83).
Automatic load compensator power piston.
Plain cap - no vent hole to smudge shooter's fingers.
Free carrier - as easy loading as M/870.
Uniform bolt time - light to heavy loads, hence less parts breakages.
Low powder residue fouling in power piston.
Automatically handles all loads, 2 3/4 mag. to new Remington trap and skeet loads including comp. barrel.
3-shot magazine.
