M. F. LARSEN

MODEL 721 "A" GRADE ACTION ONLY, LESS STOCK ASSEMBLY

In accordance with your request, we have estimated what the Factory Cost would be for furnishing the M/721 "A" Grade Action only, less Stock Assembly, consisting of the following components, Stock, Butt Plate, Butt Plate Screws, and Reinforcement Screws.

This estimate has been based on the assumption that the specifications would be the same as our present M/721 "A" Grade Action. The same Sights would be furnished and the Action would be Target & Tested to meet the same specifications as our M/721 "A" Grade Rifle.

The Factory Cost for furnishing this Action, less the stock Assembly, would amount to \$31.97 per Rifle. This is Factory Cost only, and does not reflect G&A, Research Expense or Factory Profit.

As further information, I have shown below the Factory Cost of the present standard M/721 "A" Grade Rifle, Net Selling Price less Freight and gear and discount, Dealers Price, Retail Selling Price and estimated Profit.

	Factory Cost	Net Selling Price	Dealer Price	Retail Price	Estimated Profit
M/721 "A" Grade Rifle Complete	\$ 38.13	\$ 51.62	\$ 71.40	\$ 95.25	\$ 13.49
M/721 Action Only	31.97	43.29	59.87	79.87	11.32

We hope we have furnished the information desired, and if we can be of further assistance, please advise.
