

January 24, 1961

Dear Sir,

10 grain tank, and the "dope" for my hunting license. He has
 20000 uniformed men, and he wants to get Clyde Hart to come to Wyoming.
 He has been in more than two days from his work of making rifles,
 barrels, and running his main business, the rendering plant.

[illegible]

You are right; I cannot keep up with you on this letter

writing we probably have done more than most with this camera. We are
other and will be able to recommend loads for your rifle if you purchase one.
Thank you very much for your inquiry and Sincerely Edward A. Reisinger
