M/700-ADL "CUSTOM CHECKERING" PATTERNS

Confirming, for record purposes, decisions reached on 11/15/61 in Bridgeport concerning the subject patterns, the following is our understanding:

1. The basic patterns shown in enclosure 1 were approved by the Sales Department for M/700-ADL Custom Checkering.
2. Provide the Sales Department with a M/700-ADL stock with these basic patterns hand checkered.
3. After final approval of these patterns upon inspection of said stock, we will proceed immediately to fabricate dies for producing these patterns in "Custom Checkering."
