TO: S. M. ALVIS
WAYNE HARRIS

FROM: P. E. MORGAN

Attached is a copy of letter from E. G. Larson to W. H. Foster dated March 7th, with copy to J. G. Williams.

Wayne and I jointly talked to Earl Larson last week regarding the pros and cons of the XP-100 being an unsafe gun. I don't like to see a letter of this type in our files without some sort of a technical answer as I am sure you will agree we would be assuming a lot of responsibility if, as indicated, such a hazard exists.

Will you please therefore reply accordingly so we can ease Jim Dickey's mind in this matter.
