Dear Sir:

Are you going to make the new Fireball 21 in 6 shots or so? I have a friend out West who wants to buy 2 or 3 if they come in 6 or more shots. I'd buy one myself. I just can't seem to collect to a one-shot pistol. I'm sure you would sell them rapidly. I'm interested in a gun with facilities for a scope sight mount like Bushnell. How long can the 21 kill? How about a deer.

Thank you

P.S. I'd, hear you always.

Sincerely yours,

Joseph Misiewicz
