We are returning to you, via Al Bell, the Model 600 and new gun package.

Sales is highly in favor of this new gun package, and we feel it has a great deal of merit providing it withstands the shipping test. We would also like to see something similar for the Model 760 and Model 742 - in that both of these guns will be changed to a single grade offered in January, 1964. There are also other guns that we might consider such a package for, and I will discuss them with you when I come to Ilion within the next week or two.
