MODEL 600 - Cal. 6MM - PILOT LINE TEST
Correction to Letter Dated May 1, 1964

Will you please make the following correction to the Test Data Sheet attached to the above letter:

All figures as shown under Firing Pin Indent (Min., Max. & Avg.) should be increased by approximately .004", due to measurement procedural error.

This will result in correctly indicating that all guns were within testing specifications.

CBW:T
