MODEL 700 AND 600 BARRELED ACTIONS

Sales is considering the cataloging of Model 700 and 600 Barreled Actions for 1965. The offering would be for direct sales to gunsmiths. The estimated sales are Model 700 - 500 and Model 600 - 200 per year.

Attached is a copy of the offering being made in the Firearms International Corporation catalog. It is proposed as the basis of calculating economics that the Model 700 and 600 complete gun jobber's price be used as the selling price to gunsmiths. The orders would be handled as regular gun sales and excise tax charged.

P E & C will provide the process for assembly and testing of Barreled Actions.
