TO: W. E. LEEK
FROM: C. V. BRANCHER

Dear Wayne,

Thanks indeed for the lower front sight for the M/600. It appears that it will work, maybe with a little alteration of the bolt handle.

Can I impose on you for one more and also the parts number in case a gunsmith friend would want to order them.

Your suggestion for the long eye relief scopes is appreciated but I want to use my 6mm for brush country and the peep sight is my preference.

You are right, the time between meeting is all together to long. Please call whenever you are in the Cleveland area so that we can have a visit about guns and Wyoming.

Regards,

A handwritten signature in cursive script, appearing to read "Vic".
