SUBJECT: MODEL 600 RIFLE WITH MUZZLE BRAKE

In reference to a conversation with Bob Kelly and your memo of August 15, the Export Department has considered it advisable to advise Nikko Industrial that we are not in a position to supply the Model 600 with muzzle brake at this time. Other information which has reached us at this time indicates that a definite solution to the problem existing in Japan where Model 600's cannot be imported because of police restrictions in regard to length, can be expected in the beginning of 1966.

We thank you for the time and effort you have spent on this project.
