MODEL 700 ADL and BDL IMPROVEMENTS

For the evaluation of the proposed changes to the Model 700 ADL and BDL rifles the volume will be the #3 forecast for the present and proposed lines. ADL is to be figured as 60% BDL 40%.

The added Factory Cost is to be calculated for the following:

1. Shrouded Bolt
2. Safety Assembly
3. Bolt Handle
4. Rear Sight Assembly
5. Stock and checkering
6. Damascus finish on Bolt
7. Finish on Floor Plate and Trigger Guard (BDL)
