## REMINGTON ARMS COMPANY, INC.

INTER-DEPARTMENTAL CORRESPONDENCE

Bridgeport, Connecticut  
December 6, 1967

TO: J. E. DICKEY

FROM: F. E. MORGAN

This morning you again indicated you would like to see a recap on the project figures vs the 1968 forecast for specific models.

I am sorry I did not get this information to you sooner, but they are as follows:

	<u>Project Volume</u>	<u>1968 Forecast*</u>
Model 580 series	24,000	26,000
Model 590 series	4,800	12,000
Model 788	25,000	25,000
Model 660	20,000	22,000

Volumes were not established to justify changes on the Models 742, 760 and 870. Said changes were made on the basis that they were needed to sustain our current volume, and hold our position in the market.

Estimated 1967 sales vs the 1968 forecast is as follows:

	<u>1967 *</u>	<u>1968*</u>	
Model 742	57,000	60,000	SALES
Model 760	21,000	23,000	DEC 7 1967
Model 870	80,000	85,000	J. E. D.
