January 19, 1969

CADILLAC, MICHIGAN

Remington Arms Co., Inc.  
Bridgeport  
Connecticut

Dear Sir:

I have constructed and obtained a patent for a 222 pistol. I am inquiring as to whether you would be interested in such a device and would be willing to enter into a license agreement with me.

The pistol is constructed of 222 Cal. Savage action. It is a 5 shot gun, loading from the top. It shoots minute angle groups at 100 Yds. and has shot many 2" to 2 1/2" groups at 200 Yds.

If you are interested and would like more information please advise.

I am enclosing a picture of the pistol and a photostatic copy of my patent.

*Roy C. Duncan*  
Thank-you,

Roy Duncan
