Mr. William Nos
8 Williamson Lane
Chester, New Jersey 07930

Dear Mr. Nos:

Thank you sincerely for taking the time to write us of your experience and satisfaction with the new Model 700 BDL Varmint Rifle in Caliber 22-250. Your letter had been passed along earlier to Mr. M.H. Walker who is responsible for the design of this model, and at the same time we are going to forward it along to our people in the factory who are responsible for its production; also maintenance of the good quality of workmanship which is necessary to obtain this good performance.

Of course, we must not overlook the shooter and from appearance of this fine group one must conclude that you are a real expert in this field.

Thanks again for the kind words and also for letting us have this nice target which you described as having been fired on March 22, 1969.

Cordially yours,

S. M. Alvis, Manager
Ilion Research Division
