Design

MODEL 700 - 7mm Magnum EXTRACTOR

V.G. DeReus has asked if you may want to consider possibility of using the new type extractor arrangement on the M/700 that is being tried for the M/744. This is the pin that was used in the bolt face to control position of the extractor.

*Have discussed with Mide previously.
Wishes to take a look at this, a bit
work load lets up.*
