INTER-DEPARTMENTAL CORRESPONDENCE

Remington

REMINGTON

cc: H. D. Albaugh

Bridgeport, Connecticut

March 13, 1973

TO: A. D. KERR

FROM: F. E. MORGAN

The attached letter to E. F. Barrett from N.S. Wilson dated March 12 is self-explanatory.

The theme of the letter of course, indicates police interest in our Model 700 heavy barrel varmint chambered for the 308 caliber. In view of the foregoing, what volume of unit sales would be required to produce the 700 BDL varmint in 308 caliber.

When we receive this information from you, we will ask both Government Sales and Red Sherman to forecast annual volumes.

Have checked with R.E.S. and M.E.S. - no new

tooling required - should leave volume of 500 machines to sell at regular Varmint price. Anything less should be at least \$10 extra to cover set up costs.
