FROM: C. W. RONEY

SUBJECT: POLICY ON REPLACEMENT OF MODEL 700 ADL'S
WITH SUBSTITUTE WOOD

In June of last year, you may recall we notified our wholesalers that certain models would temporarily be fitted with walnut substitute woods. In this process, a few hundred units of the Model 700 ADL, which were not on the original list for substitution, were produced and sold. Apparently a few of these are still in wholesalers' or dealers' stocks.

Since these were not a part of the original program, our policy is to replace upon request any Model 700 ADL having substitute wood with ones having walnut.

A handwritten signature in cursive script, appearing to read "C. W. Roney".
