370 Competition trap

The latest Stock, Forwarding and
assembly drawings will be furnished to Presale
Engineering this month.

Target grade trigger was in that in
this test. This firing tests have shown.

Shotgun	Trigger Pull at start	Rounds	Present Trigger Pull
870	2.08 #	1000	1.9 #
1100	2.92 #	210	2.87
1100	4.08 #	-	-

on the first two guns a fail to connect
and a double click safety.
was encountered. It was found that the trigger was
not returning to the hammer and was causing the

11700-300 Fire Control

Fire controls which have adjustment for range and
 within safe limits without having to remove the sight
 from the stock, fixed trigger mechanism, and fire
 trigger are in the test area.

2 different designs of a bolt action that
 a bolt action rifle is involved with the sight in
 will be ready in action for testing and
 market evaluation.

11700, 500's, 541's, and 500's

11700, 500's, 541's, and 500's

11700, 500's, 541's, and 500's

11700, 500's, 541's, and 500's

11700, 500's, 541's, and 500's

11/25/88 - 22 Nov 88

Work is progressing on the design of a
prototype for this model and machine.

Restained Tray

The marketing department has requested information that
has been received about, about this matter along with
and recent questions. Evaluation will begin as
results are received.

Production has gone out for production on
the hand-coiled model for preliminary introduction.
