SUBJECT:

RECORDS OF XP-100 BARRELED ACTIONS

I spoke to Jack Carter, D.C. Brooks, Dennis Sanita and Gerry Waldo.

There are computer records back to 1975 that are readily retrievable. Accounting has written records that would have to be minually checked. They go back to the introduction of the model. It may take a week to check all records.

I believe this would be the best way to cover everyone who has purchased a barreled action.

The cost of parts involved would be nominal as the last price in the catalog for all three parts was \$2.50. I would est mate that between 500 and 1000 barreled actions were sold.
