Bolt Action Carbine

Estimated 1980 factory cost for the Bolt Action Carbine rifle has been developed. The costs are based on Research and Development's latest product design and Process Engineering estimate of April 1980 which include a birch stock.

The attached listing is itemized by the Bolt Action Carbine's component assemblies and is presented at 1980 full book factory cost levels. Also illustrated for comparison are the 1980 full factory costs of the M/700 ADL and the Mohawk 600.

Please see the attached listing.
