

Intro Statements

XSE Program

XSG Program Slide
new autoloading and ~~Pump~~ action
shotguns are being developed for introduction
in the ~~1983-84~~ 1984 model year. The objectives
of the program are to replace the Model 1100 Autoloading
Shotgun and the Model 870 Slide Action Shotgun.
The guns are being designed ~~as a~~ together to take
maximum advantage of common parts for optimum
~~shared~~ manufacturing costs.

-21 mm Seismic-

A 21 mm cartridge and gun system to be used for seismic exploration for oil and gas is being developed for mapeco. The Cartridge is an electrically primed version of Remington's 8 gauge industrial load and the gun is a model 700 ⁷⁰⁰ kiln gun modified to fire either electrically or with percussion primers.

Model 7400 autoloading Rifle like action
and Model 7600 Center Fire Rifles

These Rifles have been developed as replacements for the current Model 742 and Model 760 ~~rifles~~ and are scheduled for announcement in ~~1981~~ December 1980.

Baptist Octagon Parish

This rifle ~~has~~ is being developed ~~for~~ to replace the Model 600 Centurion rifle that was discontinued last year.
