

- ✓ 15. How should we advertise the rifle you tested?
Certainly by itself - and to the attention
of the cost conscious. Remington quality at a
fashioned price. Must be substantially better than M/700 though.
Let the mass merchant sell this.
- ✓ 16. What does the word "carbine" mean to you?
Short, lightweight, "rapid-firing", saddle gun.
Should be able to comfortably fit in scabbard.
- ✓ 17. Assuming the new gun was introduced in 1980 in .222, .22-250, .243, 6mm, .308 and 7mm-08 at a retail price \$20 below the M/700 ADL, what impact would it have on other Remington center fire rifles?
Quite frankly I don't know. I think that price is too
high. It would take away more 700 ADL business perhaps
than add to 788 type business.
