

BOLT ACTION RIFLE QUESTIONNAIRE

7mm-08 Cal. Serial # B6226249

1. What do you like about the new bolt action rifle?
The bolt handle, the floor plate, and the sling studs.

2. What do you dislike about this new gun?
The finish is too light. The muzzle blast in the 7MM-08
is extremely strong. The safety is too small.
The rifle is too heavy for a carbine.

3. How would you improve the consumer acceptance of this bolt action rifle?
I would darken the finish, make the safety larger like the
one on the Model 788 and remove the sights.

4. In terms of overall quality, how does this new gun compare to other center fire rifles in Remington's line?
I do not think the cosmetic appearance of this rifle can
compare with the Model 700 and the Model 788. I would
much prefer the Model 788 for the additional money.

5. Given a \$210 suggested retail price for the M/788, a \$298 price for the M/700 ADL and a \$358 price for the M/700 BDL, where do you think the new gun would fit in our line from a price standpoint?
\$224.95
