

LUBRI-BOND GUN LUBRICANT KIT

For the first time Lubri-Bond Solid Film Gun Lubricant is available to the general public. Lubri-Bond Gun Lubricant contains molybdenum disulfide in a paint-like binder and meets military specifications MIL-L-23398 and MIL-L-46147. It is used on high speed rapid fire guns (large and small caliber), aircraft, tanks and spacecraft, to mention a few. It is a permanent lubricant and once applied should last the life of the gun, depending upon its use. Lubri-Bond Gun Lubricant will inhibit corrosion and provide a super smooth mechanical action on all moving parts. Dust and dirt will not stick to coated surfaces as it does when using oil or grease. All moving parts should be coated. If desired, the entire gun can be coated, which will provide exceptional corrosion protection. Parts coated with Lubri-Bond Gun Lubricant will be grey in color. The Gun Lubricant Kit comes with two 3 oz. aerosol containers. One of the aerosols contains a degreaser which is used as a pre-treatment before applying the gun lubricant. The other aerosol can contains the gun lubricant. Electrofilm also offers a service whereby you send us your gun and we will parkerize the entire gun (with the exception of the bore) and put on a topcoat of heat cured Lubri-Bond Solid Film Gun Lubricant. Dealer inquiries invited.
