FBI #118*

Clark has requested a schedule of quarterly Technical Reviews for 1982. I propose a tentative schedule of meetings to be held in February, May, August, and November. Specific dates will be established later. However, in general, I propose targeting for the last Tuesday of the month. To assure meeting Clark's deadline of January 8, please define suggested speakers, topics, and dates for me by December 18, 1981.
