**Subject:** M/710 - 10 Gun Test  
  
**Importance:** High

We received 10 guns from Mayfield Friday afternoon. I'd like to meet this morning briefly to have everyone review the guns. No since testing if things aren't right. Would also like to review the tests that we have planned. I've attached a copy of the test outline along with a more detailed procedure. Guns are in the Metrology Lab. How about meeting at 9:30 in the Metrology room?
