TO: Model Seven Update Gunsmiths

Your cooperation and performance regarding our request for assistance on the Model Seven update is greatly appreciated. As a result of your efforts, a considerable number of guns have been completed and returned to the customer in a timely and efficient manner.

We are requesting your assistance with rapid completion of your warranty invoice forms so we may make the necessary compensation to you. Completion will also aid us in our efforts to recognize those firearms not currently updated. Your cooperation will also reduce our mailings to customers who have already had their firearms updated.

Please complete and forward the necessary warranty forms as soon as the work is performed. Your help is greatly appreciated.
