File

John

Dear Mr Brooks,

Many thanks for the Model 700 barreled action in .257 Roberts and also the Model Seven in 7mm/08 both of which arrived yesterday. I will get the .257 stocked as soon as possible and get a story done on it. There seems to be increasing interest here in the .257 Roberts if my mail is any indication and I wouldn't be surprised to see it make a comeback.

The safety which locks the bolt handle shut and redesigned bolt cap is a big improvement on the Model Seven and one which I hope you will incorporate in future production. Tell Clark and Dick Dietz and Ted Mc Cawley that I said thanks for their cooperation and that Remington is making the best and most accurate bolt action rifles available. That little Model Seven is the best mountain rifle that I have seen to date.

Yours Sincerely,

Nick

P.S I will let Clark know how they turn out.
