Easton, CT 06425

Dear Phil:

I recently received a copy of the letter you sent to Ed Barrett on January 18 in reference to the "no bind" magazine follower you patented in 1975. I thought you would like to know that we are using this principle in all of our Model 700 Rifles and all of our Model Sevens as of January 1983. Your judgement that this feature creates the perception of better quality in the mind of the customer is entirely correct.

I'm glad to see that you are still actively interested in firearms design. If you ever get up to Ilion, please stop in to see us. You would be interested in some of the new techniques and equipment we are now using to assist in product development.

Very truly yours,

A handwritten signature in cursive script that reads "Clark".
