"CONFINE YOUR LETTER TO ONE SUBJECT ONLY"

Responsibility: R.S. Murphy

Program: NBAR Magazine Latch

Objective: To provide a magazine latch to reliably position a detachable magazine.

Goals:

- o zero bolt override malfunctions
- o reasonable unlatching forces
- o 15,000 cycle endurance life without significant latch force reduction

Stakes: Improved customer price/value relationship

Status: The design is complete and in the Model Shop to be fabricated.

Program: o Fabrication complete

Timing: o Dry cycle testing

- o Assemble
- o Developmental testing
- o Redesign
- o Fabricate prototypes
- o Design acceptance testing
- o Check CV drawings
