"CONFINE YOUR LETTER TO ONE SUBJECT ONLY"

July 13, 1985

Responsibility: F.E. Martin

Program: NSAR Bolt Lock

"CONFIDENTIAL by Stipulation and
order entered in

Tsachalis v. Remington Arms,

Objective: To provide an independent bolt lock to prevent the bolt in both the safe and fire positions. The bolt lock should be unlocked automatically by the bolt. Additionally, a means should be provided to override the bolt lock only when the rifle is on fire.

The Supreme Court of
the State of New York, County of
Westchester, Index No. 9344/95"Goals:

- o readily identified
- o easily operated in all shooting conditions
- o must not adversely affect firearm safety

Stake:

- o enhanced firearm safety
- o reduced liability

Status: The layout and design of the right hand components is complete. A fallback design has been conceptualized and a layout must be done. At present, the Model Shop is fabricating components.

Program/ Timing:

- o Check CV drawings
- o Fabricate components
- o Assemble
- o Developmental test
- o Redesign
- o Mark-up left-hand, magnum, short action prints
- o Design acceptance test
