

How to use the mounting chart.

1. Select the Redfield base and ring combinations that are correct for your gun and scope. Begin by finding the make and model of your gun in the far left-hand column. Then move straight across to the column for the particular mounting system which you desire.

First, select the base designation for the mounting system and gun, then select the ring set under that system to match the specific scope. The bases are described by a series of letters and numbers and an item number, and the ring set is described by a letter. A full explanation of rings with item numbers is listed below.

Example for ordering: Remington 700 LA (R-0) for JR system specify base, JR 700-LA, 511126 for 3-9X Widefield* scope, ring set "L", Item No. 522600.

Explanation of Ring Sets by Code Letters

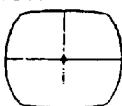

- L = #522600 Standard Rear-Standard Front-Low* (STR-STF L) (522630 Top Access Screws)
- M = #522605 Standard Rear-Standard Front-Med** (STR-STF M) (522635 Top Access Screws)
- H = #522610 Standard Rear-Standard Front-High*** (STR-STF H) (522639 Top Access Screws)
- B = #522608 Standard Rear-Extension Front-Med (STR-XTF M)
- C = #522613 Standard Rear-Extension Front-High (STR-XTF H)
- E = #522620 Extension Rear-Standard Front-Med (XTR-STF M)
- G = #522618 Extension Rear-Extension Front-Med (XTR-XTF M)
- O = #523602 JR 26 MM Standard Rear-Standard (STR-STF M)
- Q = #522622 Engraved Standard Rear-Standard (STR-STF M)
- R = #522603 High Polish Standard Rear-Extension (HP STR-XTF M)

Fits all octagonal barrel black powder rifles 1/2" to 1" across top flat portion.	JR-PS	510012	**								

Note: SR-Special bases are available for receivers not mentioned here. The bottom radius on these bases has not been machined so that they can be cut to fit any receiver not covered by the other SR bases. Item No. 512043

** Item numbers include one-piece base and two rotary dovetail rings with top access screws. Use of these requires drilling and tapping in most cases.
