Subject: Remington Arms N'BAR Program

Considering the SCSR program timing, my responsibilities and the fact that I am new to the program, I feel that I will have no time to devote to the New Bolt Action Rifle program until at least the first part of November 1989. After that, I might be able to spend 15% of my time on N'BAR. The question is: Would that be acceptable to EDL management, Bill Coleman and Terry Douglas? I have not informed them of this yet, nor have I written a new Request for Funds, because I thought you and Dick Collins were going to meet with Bill Coleman. Should I tell them and write a Request For Funds if they ask for one?
