Proof testing

- Is ammunition conditioned?

Yes: 20°C. Rel Humidity 60% - 72 hours

- What kinds are used. (Per Norms DWM) all loaded by Liege Proof House
- What ammo. for American calibers? - buy American brass (like Rem. 7mm magnum) - load it there
- Any special procedure to orient powder? - not when testing firearms

A gun proofed in U.S. is re-proofed in Europe. A gun proofed at Liege is accepted by all C.I.P. member countries.

Chamber Design

- Free bore? (throat?)

- 7x64 calculation ~~no~~ allows no free bore.
Is that unusual? - Routine in Europe

- Is any case expansion allowed at proof? No
