Subject: M/710 Cosmetic Review

John/Jay,

Per the M/710 review minutes, we have set Jan. 15 as the target for a cosmetic review of the M/710. I would like to set up a meeting for the week of Jan 14, here at E-town. The objective would be to review all issues/expectations for the M/710 and have Carlo begin generating new renderings based on the decisions generated during the meeting. Please review your schedules and determine which day of the week will work. I would suggest that you fly in the night before and figure on a 6 00 departure time the day of the meeting. I would like to have you guys work with Carlo as much as possible during the day to reduce the iterations as much as possible. The stock cosmetics will need to be finalized, digitized, and issued for mold build by the end of March.

Mike Santillo, you should expect to attend this meeting as well. Fits and finishes will be determined
