REF.: MONTHLY REPORT FOR APRIL 1993

SAFETY, HEALTH AND HOUSEKEEPING:

- Site audit completed for month.
- Attended monthly Process Hazards Committee.

PERSONNEL ISSUES:

- Charles Stephens has replace Bob Howe in the test Lab and is now on the job. Chuck is assigned to the Dry Cycle operation as well as other Test Lab functions.

MAINTENANCE:

- Had to have the Hepa Filter changed on the Torit Filter for the air system in the Water Shot Catcher Area.
- We have also done some modification on the air handling system in the Water Shot Catcher area to improve gun smoke exhausting when shooting the O/U's.

TEST PROGRAMS:

- Have continued to test the pre-trial and pilot sample of the O/U's . Still waiting for a large enough sample (at least 200 guns) to be put in the warehouse so that the Trial & Pilot Test sample can be drawn for test.
- We have started the T & P testing on the M/700; 300 weathery stainless and the T & P testing on the M/7600 with matt finish.
- We have an O/U dry cycle test continuing with the purpose of improve the life of ejectors.
- Recoil evaluation testing is continuing.

PROJECTS:

- No significant changes to report.
