"CONFINE YOUR LETTER TO ONE SUBJECT ONLY" \_\_\_\_\_

June 4, 1993

M E M O R A N D U M

TO: K.W. SOUCY  
FROM: F.E. SCHMIDT, JR. *HS*  
SUBJECT: MAY MONTHLY REPORT

Metallurgy support this month was very heavily focused at arms service, firearm gun examinations and discovery requirements for representation of Remington in pending litigation.

Specific items, other than pre-litigation, where progress has been made relate to plant assistance and product service:

Plant Assistance

Lot sampling for x-ray analysis of O/U brazed barrel assemblies was instituted May 12th. This will save over \$10,000/month at projected production schedules.

ERW (Electrical Resistance Weld) audit of O/U vent ribs.

MIM Shotgun choke tube wrench process audit to improve flow and yields.

Product Service

Ken Green requested support to aid marketing with definition of after market product evaluation for toxicology at Haskell-Stine Laboratory, Wilmington, DE, and guidelines for product warning labels.
