9/30/93

PROGRESS REPORT

- o Purchase Parts Quality Presentation - Was made to the Technical Groups to help define what is being done currently to improve incoming parts quality. Further communications are planned to continue this effort.
- o Purchase Parts Quotes Routing - Is being developed to improve communications on vendor changes. R.A. Jackson has reviewed a tentative form.
- o Student/Mentor Program - A presentation on attribute gaging was developed and presented. A presentation on process records is being developed for the next class.
- o XP100 Walnut & Laminated Stocks - Continue to review progress on this issue, still having clearance problems. Contacted Bobby Dye (Remington, MO), will work with our engineering to make at S&K.
- o M/700 Bolt Handles - Working with PMI to alleviate polishing problems caused by heat sinks in parts.
- o Nexus - Attended training session on capital project work orders and purchase req.
- o Developing further sessions on geometric tolerancing for the remainder of the Technical Group & Production.
