Subject: m/710 receiver inserts

Joe/Mike,
I'm shipping you guys 10 of the receiver inserts and 15 threaded inserts. There are dimensional issues with the inserts, Hanson is working on the dimensions and corrections. Use these samples for general review and then try to set up a temp. ultrasonic fixture to sink the inserts. Tentatively we are still on schedule to build on 5/11, so try to have a process setup to sink the inserts into good receiver inserts by then. Let me know if you need anything else, Thanks.
