

Remington®

2008 SEASONAL PRODUCTS GUIDE

COMPETITION SHOTGUNS

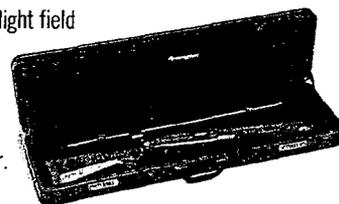

**CONFIDENCE
IS OFFICIALLY TANGIBLE.**

No shotguns have won more titles, or are better equipped for the high-volume regimen of today's elite shooters. Prepare to see record scores crushed at a rapid rate by our latest upgrade to the lineup – the new **Model 1100™ Premier Sporting** series. Featuring nickel receivers with intricate fine-line embellishments and gold accents, they're as aesthetically impressive as they are sweet to point and shoot. Gold triggers and a custom Premier Sporting hard case complete the package. The Premier is offered alongside our original **Model 1100 Sporting** shotguns. Both the Model 1100 Sporting and Sporting Premier series offer discriminating shooters 12, 20, 28 and 410 options with semi-fancy American walnut stocks and fore-ends, vent-rib Rem™ Choke barrels and four extended chokes as standard equipment.

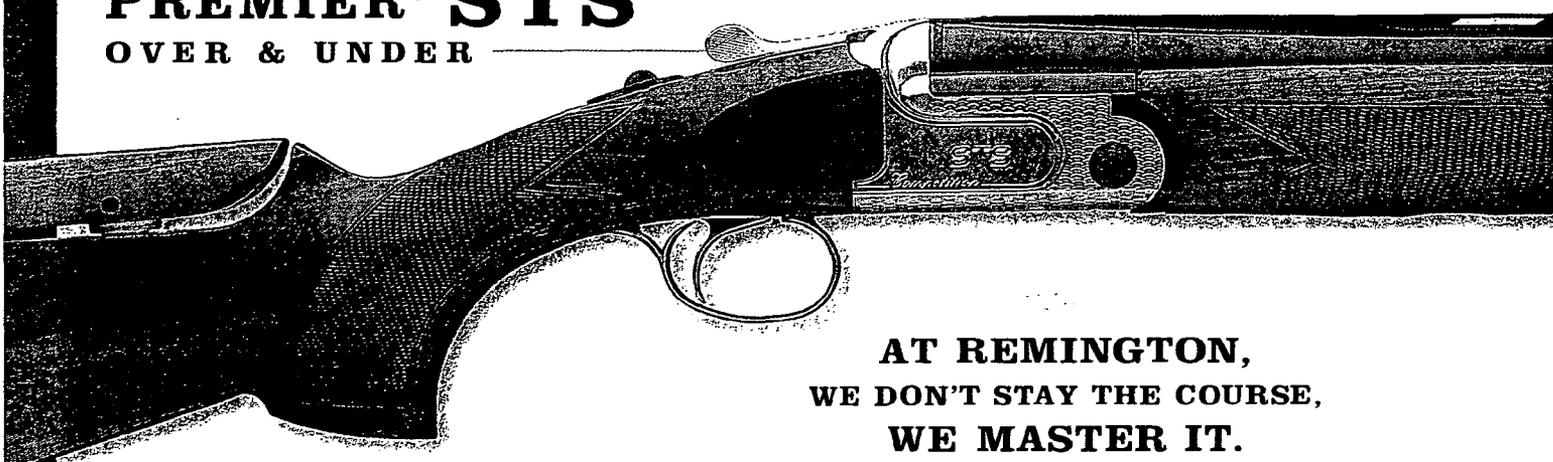

Our **Model 1100 Competition** is super-tuned for the competitive scene. By overboring the 30" barrel and lengthening the forcing cones, we improved shot-to-shot pattern consistency and made what was one of the softest-recoiling actions in the world even easier on your shoulder. The receiver and all internal parts feature a nickel-Teflon® finish for the smoothest, most reliable cycling ever. It's optimized for 2 3/4" target loads and light field loads. Its optional adjustable comb can be fine-tuned to your shooting preference, and the barrel has a 10mm target-style rib. All these, plus a host of other upgrades transform an already legendary design into an unstoppable force at the range.

Generations of die-hard competitors have made our **Model 1100 Classic Trap** and famous **Model 870™ Classic Trap** venerable mainstays. From 16s to the very back line, they continue to shoot their way to the top of major events every year.

CUSTOM PREMIER SPORTING CASE
(Included with each Model 1100™ Premier Sporting)

PREMIER® STS® OVER & UNDER

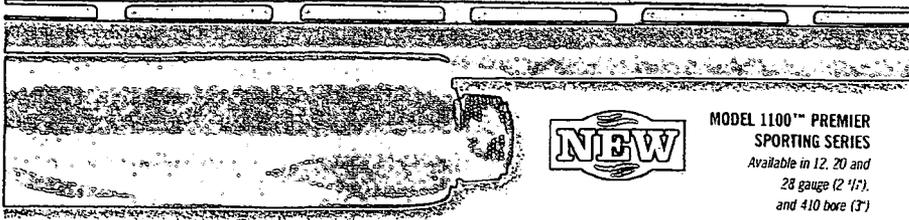

**AT REMINGTON,
WE DON'T STAY THE COURSE,
WE MASTER IT.**

Developed using input from professional shooters worldwide, our 12-gauge Premier® STS® Competition Over and Unders are quickly crushing their way to the top of the competitive scene. Superbly balanced with a sleek, low-profile receiver and built rock-solid, they're a serious competitor's dream.

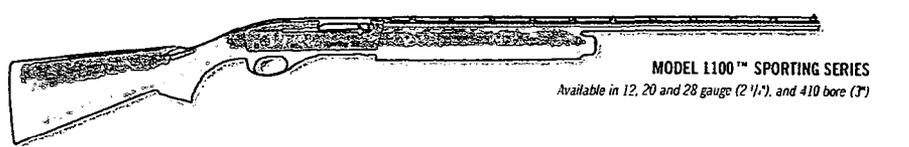

Every facet is optimized to excel in high-speed, high-volume shooting sports arenas. The barrels are overbored (0.735") with lengthened forcing cones to enhance pattern consistency and lessen felt recoil. For ultra-smooth operation and long-term protection from heat and wear, we added a coin-nickel-plated receiver. A 10mm target-style rib with ivory front bead and steel midpost aid in target acquisition. We even fine-tuned the point of impact using input from professional target shooters. A set of five ProBore® Choke tubes with knurled extensions helps you quickly adapt to changing conditions and courses.

For added comfort, there's a right-hand palm swell, and the lustrous satin wood finish is complemented by a gold trigger and engraved receiver. Other features include a target-Schnabeled fore-end and premium hard case. Barrels are offered in 28", 30" and 32" lengths with standard stock and 30" or 32" with adjustable comb.

EXTENDED PROBORE® CHOKE TUBES

ADJUSTABLE-COMB STOCK

MODEL SPR310™ & SPR100™

**JUST THE BREAK
YOU'VE BEEN LOOKING FOR.**

A solid, dependable break-action shotgun should be part of every shotgunner's arsenal. When they're priced like this, we'd recommend two. The following two in particular. Our **Model SPR310™ Sporting Over and Under** is superbly balanced, natural to point and has an impressive list of features you'll find on much more expensive guns. Its mono-block steel receiver is attractively nickel-plated, and its barrels are richly blued and chrome-lined for dependable performance year after year. A single selective trigger, auto selective ejectors, checkered walnut stock and fore-end, plus interchangeable SPR chokes make this a high-performance shotgun within the reach of most shooters.

Model SPR100™ Single Shots are rugged, smooth-handling shotguns we produce for a modest price while maintaining our strict standards for performance. Premium features include chrome-lined, hammer-forged barrels, crossbolt safeties with cocking indicators, titanium-coated triggers and more. Choose from two models: our Sporting in 12 or 20 gauge and the MAX Nickel 410.

MODEL SP-10™ SPECIAL PURPOSE

**A FAMILY OF
PERFECT 10s.**

R₃

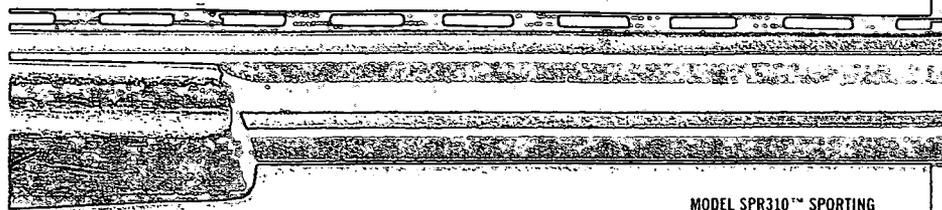

For serious extended-range shotgunners, the Model SP-10™ is the ultimate in lethality – from duck blind to turkey woods and everywhere in between. Its 3 ½" 10-gauge payloads are significantly superior in patterning efficiency to 12-gauge 3 ½" guns, and even produce less felt recoil. It features a corrosion-resistant gas-operated action, in which the cylinder – not the piston – moves, helping dampen rearward force. Ultra-reliable and smooth, it's the only shotgun worthy of the ultimate bird-leveling payload.

Ducks and geese beware: The big gun is now available with the state-of-the-art wetlands concealment – new Mossy Oak® Duck Blind™ camouflage. The **Model SP-10™ Waterfowl** features a 26" Rem™ Choke barrel with a high-visibility fiber-optic sight system. Supplied with a full set of three Biley extended specialized waterfowl choke tubes.

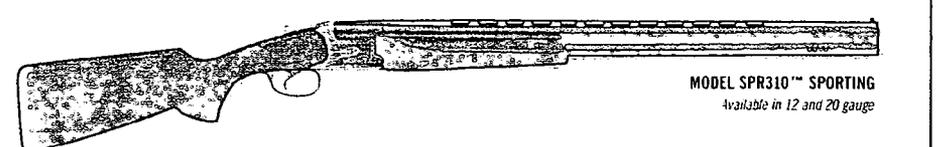

Our new **Model SP-10 Thumbhole** camo will reach out and bust a tom in grand fashion. Its thumbhole stock, adjustable Williams® fiber-optic Fire Sights™ and handy 23" barrel make it the ultimate gobbler stopper. It's also fully dressed in Mossy Oak® Obsession™ camo.

The **Model SP-10 Magnum Camo** and **Model SP-10 Magnum Satin** come equipped with 26" or 30" vent-rib Rem™ Choke barrels with twin beads and interchangeable Full and Modified Rem chokes. Choose from a Mossy Oak® Obsession or a traditional wood-stocked Satin finish.

All camo models feature R3® recoil pads with LimbSaver® technology for enhanced shooting comfort.

MODEL SPR310™ SPORTING

MODEL SPR310™ SPORTING
Available in 12 and 20 gauge

MODEL SPR100™ SPORTING
Available in 12 and 20 gauge

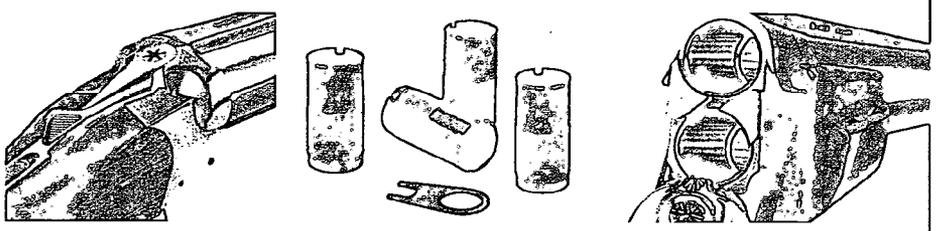

MODEL SPR100™ MAX
410 bore youth version also available

For model specifications, see page 38.

MODEL SPR310™ SPORTING FEATURES

- Single selective trigger
- Auto selective ejectors
- Checkered walnut stock and fore-end
- Chrome-lined hammer-forged barrels
- Nickel-plated steel receiver/mono block
- Deep blued barrel finish
- Auto tang safety
- Ventilated rib
- Screw-in SPR chokes* Cyl., I.C., Mod., and Full on 12 and 20 gauge (Cyl. and I.C. are approved for steel)
- Rubber recoil pad

*Screw-in SPR choke tubes are not interchangeable with Rem® Chokes

MODEL SP-10™ THUMBHOLE
Available in 10 gauge (3 1/2")

MODEL SP-10™ MAGNUM CAMO
Available in 10 gauge (3 1/2")

MODEL SP-10™ MAGNUM SATIN
Available in 10 gauge (3 1/2")

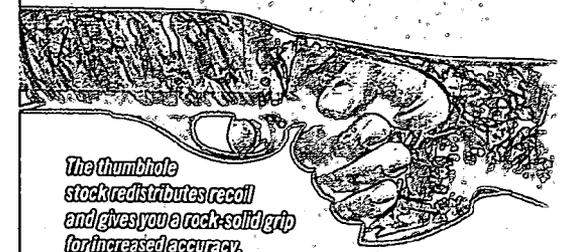

MODEL SP-10™ WATERFOWL
Available in 10 gauge (3 1/2")

For model specifications, see page 38.

FEATURES

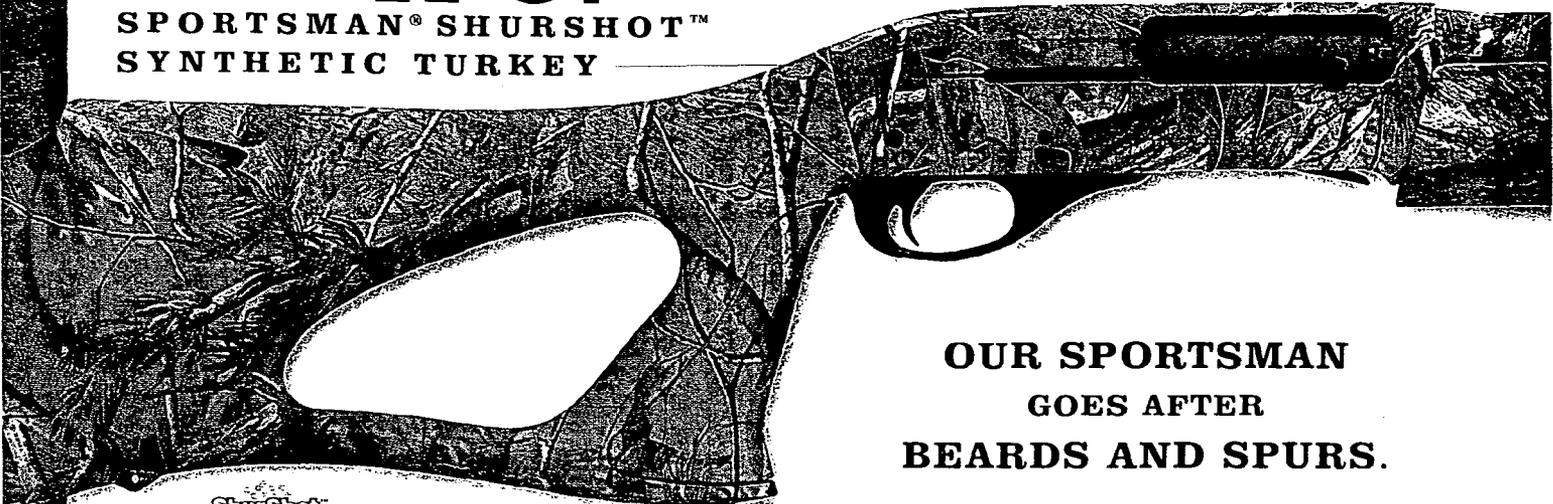

- America's most popular gas-operated 10-gauge shotgun
- Awesome 10-gauge power will handle any waterfowl or turkey hunting situation
- Model SP-10 Thumbhole comes with Williams® fiber-optic Fire Sights™ on a 28" barrel
- Camouflage version is fully covered in Mossy Oak® Obsession™ or Duck Blind™
- All come with sling swivels and padded sling
- Camo stock versions are equipped with a Remington R® recoil pad with LimbSaver® technology

The thumbhole stock redistributes recoil and gives you a rock-solid grip for increased accuracy.

MODEL 11-87™

SPORTSMAN® SHURSHOT™
SYNTHETIC TURKEY

**OUR SPORTSMAN
GOES AFTER
BEARDS AND SPURS.**

ShurShot™
Stock

Maximum speed, power, comfort, versatility, precision shot placement – the Super Magnum™ Model 11-87™ Sportsman® is everything you could possibly want in the turkey woods and more. It's lighter and easier to handle than ever thanks to the addition of our new ShurShot™ synthetic pistol-grip stock. Designed with input from turkey, deer and predator fanatics across the nation, this revolutionary stock provides both right- and left-handed hunters with a rock-steady hold and awesome maneuverability.

Built on the reliable, smooth-cycling Model 11-87 action, this bird-busting standout stays hidden with Realtree® APG™ HD™ camo from butt to bore. The quick-pointing 23" barrel has fully adjustable TruGlo® fiber-optic sights and comes with a Wingmaster HD™ Turkey extended Rem™ Choke for flattening big, tough birds at extended range. This gun soaks up recoil from heavy turkey loads with outstanding efficiency. And optics are easily installed thanks to its drilled and tapped receiver. The included black sling makes this a complete package ready to hit the woods.

MODEL 870™

SPECIAL PURPOSE TURKEY

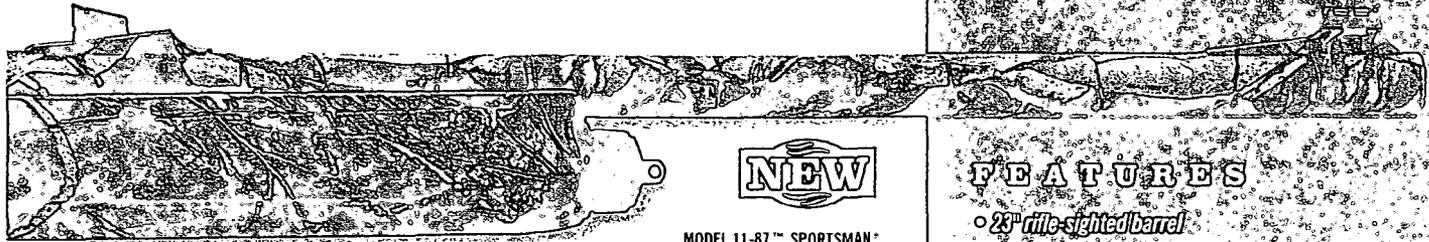

**TWO DEVASTATING
DEVELOPMENTS
FOR TURKEYS.**

ShurShot™
Stock

The most dependable slide action of all time in two advanced designs super-tuned to bring the strut to a grinding halt. Both of these specialized turkey shotguns are fully covered in Realtree® APG™ HD™ camo and deliver 3 1/2" Super Magnum™ payloads with lethal authority at the longest ranges. Now featuring our new ShurShot™ synthetic pistol-grip stock, the updated Model 870™ SPS ShurShot™ Synthetic Turkey offers both right- and left-handed hunters the pinnacle of lightweight shooting comfort and handling ease. With this stock in your grip, repositioning for the shot is quick and efficient, plus the position of your hand naturally diffuses recoil. The 23" barrel offers awesome maneuverability, while the fully adjustable TruGlo® fiber-optic sights and an extended Wingmaster HD™ Turkey Rem™ Choke maximize pattern placement.

Recoil suppression and adaptability are hallmarks of the new Model 870 Super Magnum™ MAX Gobbler™ thanks to its Knox® SpecOps™ pistol-grip stock. Length of pull is adjustable, so you can customize the fit to your shooting style. This highly advanced stock also incorporates state-of-the-art recoil-dampening technology – with dual shock-absorbing springs – to tame 3 1/2" super magnum thunder. Other features include a swift-pointing 23" barrel with bright, fully adjustable Williams® fiber-optic Fire Sights™ for precision, an R3® recoil pad and an included Turkey Super-Full Rem™ Choke.

A truly ambidextrous design, the ShurShot™ pistol grip stock delivers lightweight comfort, steady shooting and rapid handling for both right- and left-handed shooters.

MODEL 870™ EXPRESS® SUPER MAGNUM™

**THE ORIGINAL WORKHORSE,
BUILT BIG AND FIERCE
AS THEY COME.**

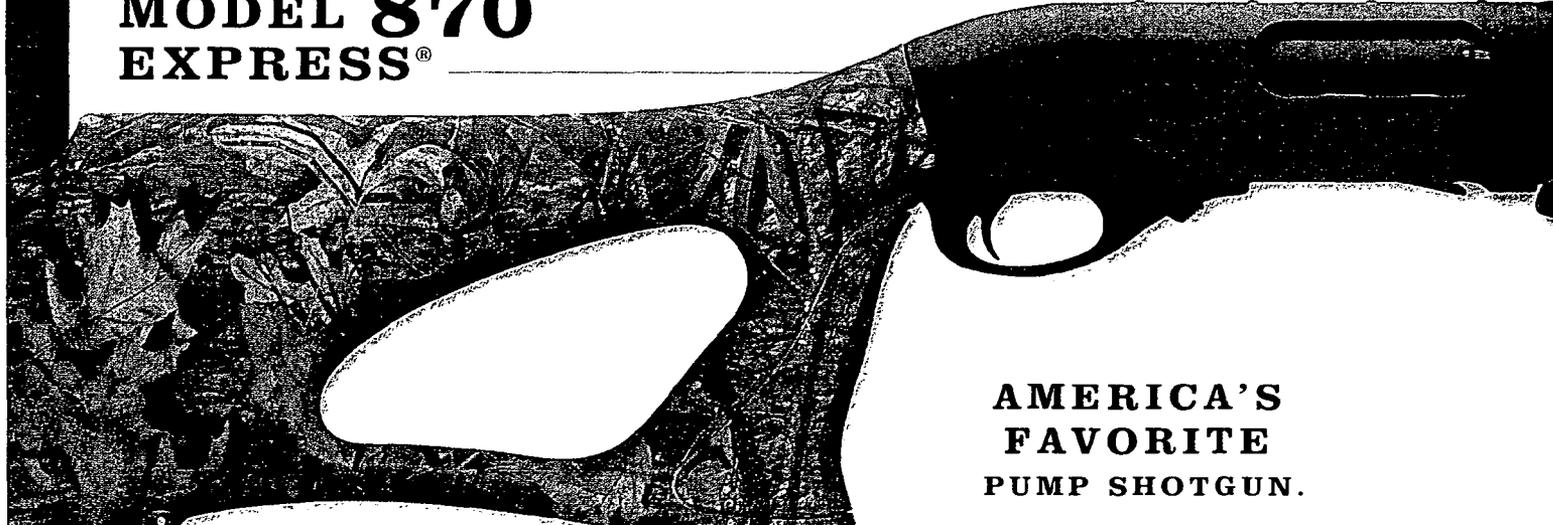

Simply put, this is the most versatile, reliable pump shotgun ever built. It handles it all – 2 3/4" loads to big, thumpin' 3 1/2" mags, the nastiest conditions and years of hard use. If the birds are strutting, our Model 870™ Super Magnum™ will shuck and deliver.

Whether you choose full Mossy Oak® Break-Up™ camo or the matte black synthetic model, you'll get the enhanced maneuverability and fast aiming of our 23" barrel, plus the extended bone-crushing reach of a Super-Full Turkey Rem™ Choke. All this, with the same balance and feel you've come to expect from our legendary Model 870 (the most popular, dependable pump gun in history). Gobblers beware: the American standard has stepped up to Super Mag.

MODEL 870™ EXPRESS®
SUPER MAG TURKEY SYNTHETIC
Available in 12 gauge (2 1/4", 3" and 3 1/2")

MODEL 870™ EXPRESS®

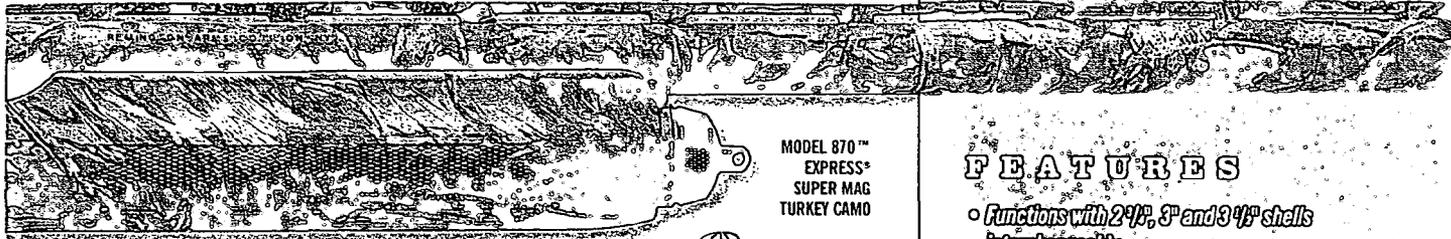

**AMERICA'S
FAVORITE
PUMP SHOTGUN.**

ShurShot®
Stock

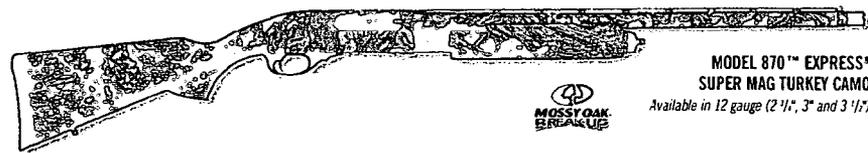

Its solid, dependable action makes it America's favorite, and our continual upgrades, including this year's new ShurShot™ ambidextrous pistol-grip stock, make it the most lethal, well-rounded family of pump shotguns around. Along with continually evolving designs, this shotgun's superiority is a matter of rugged dependability, great pointing characteristics and versatility. In fact, the Model 870™ has been the standard for slide-action performance for more than 50 years.

Our new Model 870 Express® ShurShot™ Synthetic Turkey is optimized for the turkey woods with the revolutionary ShurShot™ synthetic pistol-grip stock. It's contoured to accommodate both right- and left-handed shooters, while offering an incredibly steady-aiming platform that handles like lightning and aids in lessening felt recoil. This shotgun's shorter 21" barrel adds to its superb maneuverability, and the Turkey Extra Full Rem™ Choke channels maximum payload to the sweet spot. The receiver is drilled and tapped, so adding optics is a cinch. Mossy Oak® Obsession™ coverage on the stock and fore-end keep you concealed.

The Model 870 Express Turkey Camo and the Model 870 Express Turkey/Deer Combo utilize our synthetic stocks in Mossy Oak® Break-Up™. These are the most reliable, best-shooting shotguns you can own, and we're proud to make them. But even prouder of the fact you've made them America's Pump Guns.

MODEL 870™ EXPRESS®
SUPER MAG
TURKEY CAMO

MODEL 870™ EXPRESS®
SUPER MAG TURKEY CAMO
Available in 12 gauge (2 1/4", 3" and 3 1/2")

Model 870™ Super Magnums will function with 2 1/4", 3", and 3 1/2" shells interchangeably

Breakthrough bolt redesign keeps cycle stroke equal for all three sizes of 12-ga. shotshells

Super Magnum™ receiver is same size as all 12-ga. 870™ shotguns for similar balance

Magazine length unchanged for same balance point; capacity is three 3 1/2", and four 2 1/4" or 3" shells

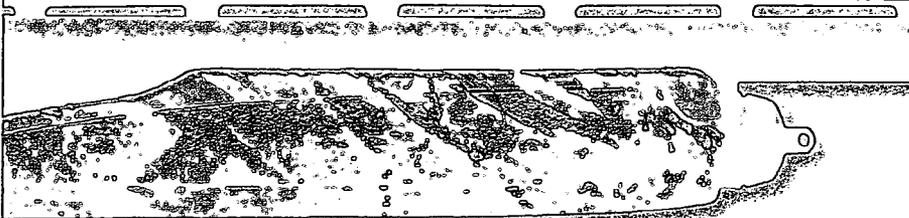

Trigger mechanism retains same dimensions and crisp feel of all 12-ga. Model 870s

Superior design and inherent strength of 870™ receiver easily accommodates the power and longer length of 3 1/2" shells

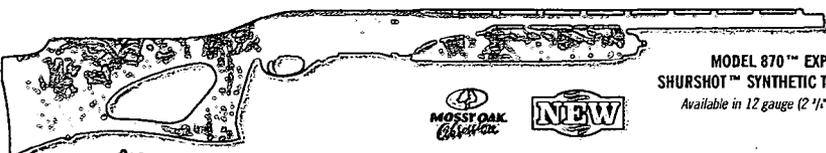

For model specifications, see page 38.

TACTICAL SHOTGUNS

R₃

A NEW LOOK AT
AMERICA'S MOST
TRUSTED
TACTICAL SHOTGUN.

Still the #1 choice of top law enforcement agencies across the country, Remington® tactical shotguns are rugged, ultra-dependable and continually evolve as they're called to serve in new, increasingly demanding environments. The **Model 870™ Tactical Desert RECON** series shotguns are equipped with Tiger Stripe Products® Digital Tiger™ camo stocks and fore-ends, and military-style olive drab powder-coated metalwork for looks as distinctive as their performance. These shotguns are available with two different stock designs, 18" or 20" barrels and two- or three-shot magazine-tube extensions. To reduce muzzle jump and recoil, both Desert RECON models come with our special ported Tactical Extended Rem™ Choke.

Our all-black **Model 870 Tactical** shotguns are offered with 18" and 20" barrels, three stock options, including a Knox® SpecOps™ folding stock with recoil-reducing springs and two- or three-shot magazine-tube extensions. All 870 tactical shotguns are chambered for 2 3/4" and 3" 12-gauge rounds.

The famous **Model 1100 Tactical** shotguns are all-black as well, come with our standard stock or the Knox® SpecOps™ SpeedFeed® IV pistol-grip stock and a choice of 18" or 22" barrels. They're chambered for 2 3/4" 12 gauge.

Every model in this lineup is equipped with sling swivel studs and R3® recoil pads (folding stocks excluded) to soak up the shock of heavy 12-gauge loads. When the stakes are at their highest, accept nothing but the highest level of tactical performance. Remington tactical shotguns.

MODEL 700™ VTR™ VARMINT TACTICAL RIFLE

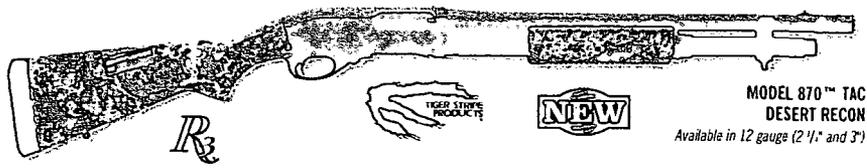

THREE LEADING EDGES,
ONE WICKED
NEW PERFORMANCE STANDARD.

A fusion of our most advanced performance features in both tactical and varmint rifles, the new **Model 700™ Varmint-Tactical Rifle (VTR™)** is a revolutionary system optimized for extended-range precision and mobility. Its triangular barrel contour is a product of years of rigorous research and development focused on reducing weight, enhancing rigidity and promoting rapid heat dissipation. To decrease recoil and muzzle jump, this uniquely contoured 22" barrel has an integral muzzle brake that's machined-in during production. Along with the new barrel design, we brought together a host of other cutting-edge features on our super-accurate Model 700 platform. The results are nothing short of astounding.

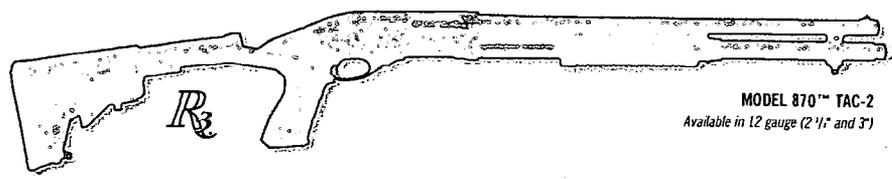

Chambered for the inherently tight-grouping 223 and 308 calibers, each model engineered with a rate of twist optimized for tactical-style bullets, the Model 700 VTR is compact and swift-handling thanks to its sleek lines and short action. Our legendary "three-rings-of-steel" and the many other superior design elements of this rifle deliver the highest degree of out-of-the-box accuracy available today. Plus, it's matched with the new X-Mark Pro™ Trigger system for the ultimate in crispness and shot control. For improved consistency, the green synthetic stock has a vented beavertail fore-end that promotes rapid cooling. Its black overmold accents provide a firm gripping surface, and the dual sling swivel studs permit convenient attachment of a bi-pod and a sling.

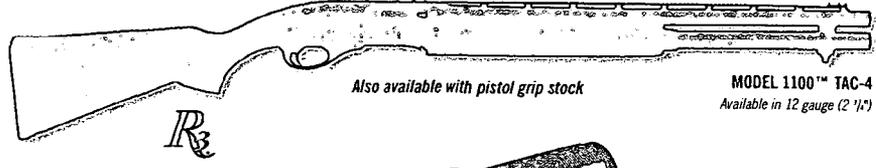

MODEL 870™ TAC SFIV
DESERT RECON
Available in 12 gauge (2 1/4" and 3")

MODEL 870™ TAC
DESERT RECON
Available in 12 gauge (2 1/4" and 3")

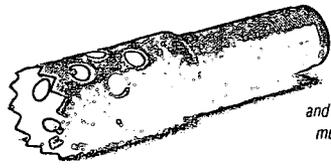

MODEL 870™ TAC-2
Available in 12 gauge (2 1/4" and 3")

Also available with pistol grip stock

MODEL 1100™ TAC-4
Available in 12 gauge (2 1/4")

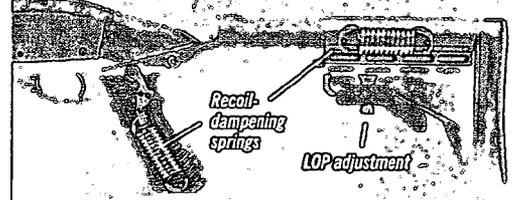

For model specifications, see page 38.

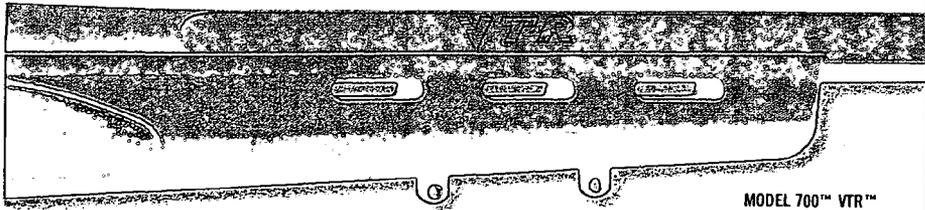

The Tactical Extended Rem Choke is designed for optimum performance and recoil reduction. It also aids in reducing muzzle rise for consistent shot placement.

MODEL 870™ DESERT RECON FEATURES

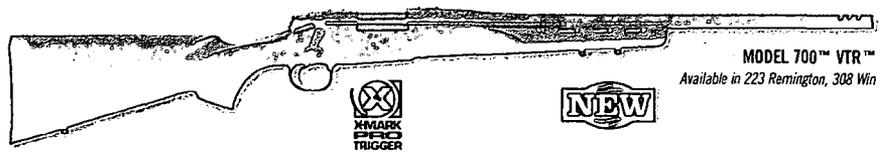

- SpeedFeed I (shell holding) stock on 12 gauge, 18" 2-shot extension model
- SpeedFeed IV (pistol grip style) stock on 12 gauge, 20" 3-shot extension model
- Tiger Stripe Products® Digital Tiger™ TSP Desert Camo on stock and fore-end
- Military-style "Olive-Drab" power coat finish on barrel and receiver
- Special ported "Tactical" Extended Rem™ choke tube
- Front bead sights on both models
- Drilled and tapped receivers

The Knox® SpecOps™ stock features a recoil-compensation system that dramatically reduces felt recoil and muzzle jump.

OVERMOLDED GRIPS ON STOCK

TRIANGULAR BARREL CONTOUR

YOUTH FIREARMS

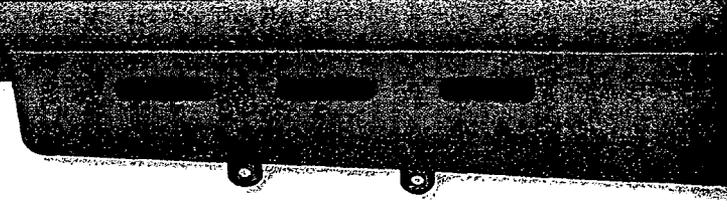

**FOR EVERY TRADITION,
THERE IS A BEGINNING.**

Young shooters are more likely to become stewards of the shooting sports if they're initiated with a gun that fits properly. This is what drove us to equip some of our most popular firearms with stocks of a shorter length of pull. And trust us –raise 'em on Remington® shotguns and rifles, and one day they'll thank you for it.

America's most popular pump action is the platform for three of our high-performance youth shotguns. The **Model 870™ Express® Youth Turkey** and **Model 870 Express Jr. Youth Turkey** (1" shorter length of pull) have camo stocks and fore-ends for superior concealment. The **Model 870 Wingmaster® Jr.** is a lightweight, fast-handling shotgun featuring an 18 1/4" barrel and the classic looks of a laminated wood stock, gold trigger and richly blued finish. And our break-action **Model SPR100™ MAX Youth** is a tough, reliable design built for years of dependable function. When it's time to train youngsters in trigger control and shot-to-shot consistency, our **Model Five™ Youth 22LR** is the perfect choice. This little tack-driver has a five-round magazine (includes adapter to make it a single-shot), a 16 1/2" barrel with adjustable sights, a dovetail receiver for scope mounting and a single-stage trigger with a two-position safety.

LEFT-HANDED RIFLES

**LEGENDARY PERFORMANCE
IS MORE THAN
JUST RIGHT.**

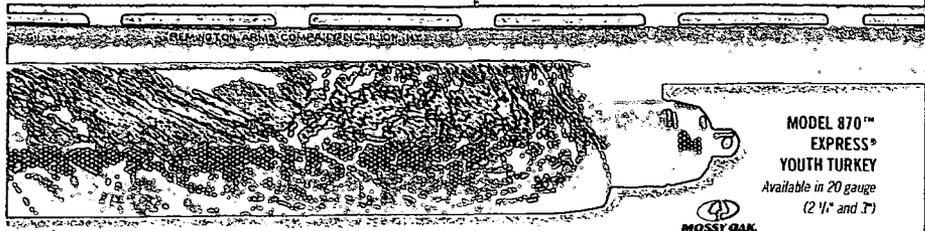

South paws are people too, and all people deserve the legendary accuracy and dependability of Remington® Model 700™ rifles. New for 2008, our expanded family of left-handed offerings includes four high-performance additions – the Model 700 SPS™ Varmint, Model 700 XCR, the Model 700 CDL™ and Model 700 SPS Youth Synthetic. Along with our unrivaled standards for out-of-the-box accuracy, all include the new X-Mark Pro™ Trigger system, which offers the highest degree of crispness and shot control you can get from the factory.

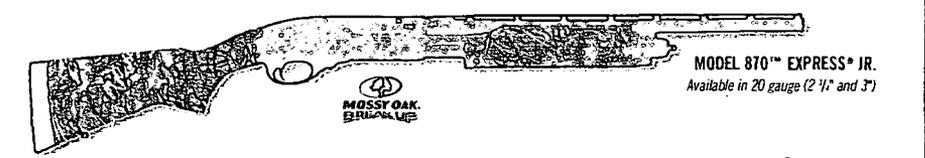

The **Model 700 SPS Varmint** sports a 26" heavy-contour barrel complemented by a vented beavertail fore-end for rapid cooling and improved shot-to-shot consistency. It comes in five great short-action calibers including the hot new 4,000-fps 17 Remington Fireball. Other standard features include a non-reflective black matte finish, hinged floorplate magazine, sling swivel studs and a drilled and tapped receiver.

Test your limits with the stainless **Model 700 XCR**. It's the most durable, corrosion-resistant rifle on the planet thanks to exclusive TriNyte[®] coating. Along with being nearly invincible, it features a sleek black synthetic stock enhanced with gray overmolded rubber grips for superior handling in the most adverse weather conditions.

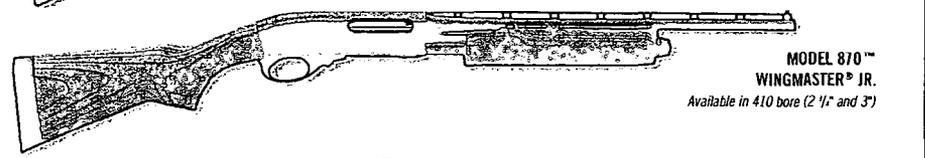

The **Model 700 CDL** is the quintessential hunting rifle, embodying the best in traditional good looks as well as our leading-edge standards for precision, durability and cartridge chamberings. Our **Model 700 SPS Youth** left-hand has a 1" shorter length of pull, swift-handling 20" barrel and is offered in two venerable big-game calibers: 243 Win and 7mm-08 Remington.

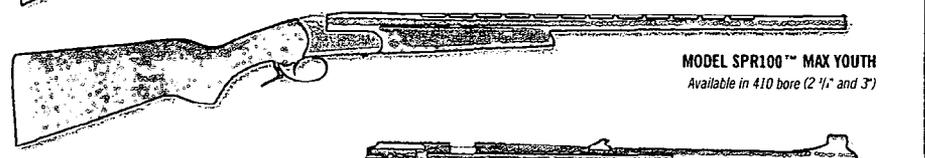

MODEL 870™ EXPRESS® YOUTH TURKEY
Available in 20 gauge (2 1/4" and 3")

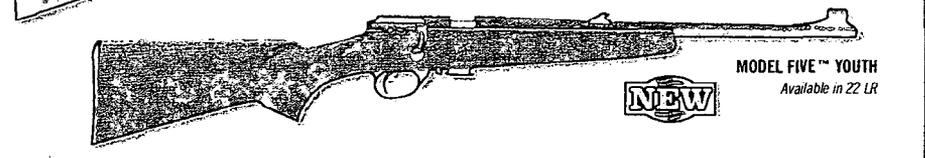

MODEL 870™ EXPRESS® JR.
Available in 20 gauge (2 1/4" and 3")

MODEL 870™ WINGMASTER® JR.
Available in 410 bore (2 1/4" and 3")

MODEL SPR100™ MAX YOUTH
Available in 410 bore (2 1/4" and 3")

- Dual front sling swivel studs included (one rear stud)
- 26" heavy-contour barrel (0.620" muzzle O.D.)
- Legendary Model 700™ action
- Drilled end tapped for scope mounts

For model specifications, see page 38.

MODEL SPR18™

AN OPEN & SHUT CASE OF QUALITY & VERSATILITY.

The time-honored single-shot rifle. Its simplicity, sleek lines and superior accuracy make it a favorite of those confident in their ability to make one bullet count. And our Model SPR 18 is a fusion of traditional design and state-of-the-art performance features that will give you precise command of that one round, again and again.

Offered in a wide range of varmint and big-game calibers, this rifle's slim hammerless design is punctuated by an appealing spiral-forged barrel that's chrome-lined for enhanced durability. It's equipped with a crossbolt safety, single-stage trigger and fully adjustable rifle sights. Mounting a scope is a simple proposition thanks to the 11mm rail. Choose from blued steel or nickel receivers.

For a full-time big-game or varmint rifle, or just a gun for your weekend walkabouts, the Model SPR18 is a dependable, great-shooting addition to any hunter's arsenal.

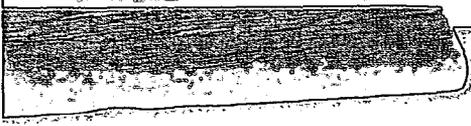

MODEL 798™/799™

PROVEN ON SAFARI. MADE AFFORDABLE BY REMINGTON.®

Welcome custom-shop features in a factory-built rifle. Famous on safari for its amazing strength and reliability, the controlled-round-feed Mauser action is back in mainstream production. That's right, what used to only be available through surplus suppliers and custom shops is now well within reach. We have carefully reworked every aspect of these rifles to meet the tastes and performance demands of today's hunter and shooter. And this year, we're offering the **Model 798™** in a special **Safari** edition chambered in the venerable 375 H&H and 458 Win Mag. Built around a long-action Mauser 98, it's your ticket to dropping the toughest game on earth. For both aesthetics and durability, you can't beat our Realwood™ walnut laminate stock. It combines the enduring stability and toughness of lamination with the classic good looks of highly figured walnut. This striking woodwork is accented by a richly blued barrel and receiver. The receiver is drilled and tapped for standard Mauser 98 scope mounts.

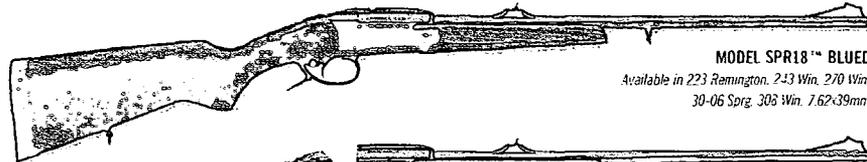

Reliable, ultra-positive feeding and ejection, rock-solid dependability and inherent accuracy are just a few of the reasons the Mauser 98 has influenced the design of virtually every bolt action made today. The Model 798 is everything you need for an extended trip to the bush. Even if it happens to be on the back 40.

Our quick-handling, compact **Model 799™** is a scaled-down version of its big brother, the Model 798. This ultra-reliable, high-performance standout features a miniaturized receiver with the famous Mauser bolt release; a crisp, single-stage trigger; two-position safety; and an all-steel trigger guard and magazine assembly for superior longevity. It has a rugged, good-looking laminated stock, a deep blued finish and its receiver is drilled and tapped for easy scope mounting. The five popular short-action chamberings — 22 Hornet to 223 to 7.62x39mm — and its precise nature make this fast-pointing gun ideal for varmint and predator pursuits.

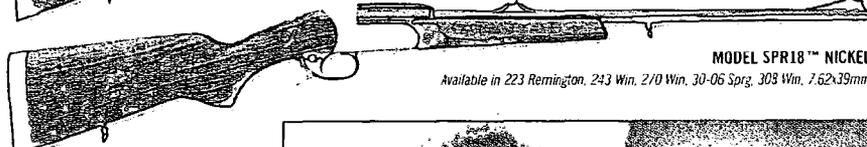

MODEL SPR18™ SINGLE SHOT

Available in 223 Remington, 243 Win, 270 Win, 30-06 Sprg, 308 Win, 7.62x39mm

MODEL SPR18™ BLUED

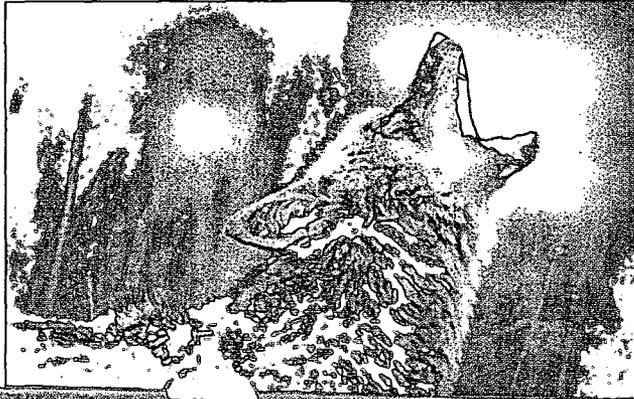

Available in 223 Remington, 243 Win, 270 Win, 30-06 Sprg, 308 Win, 7.62x39mm

MODEL SPR18™ NICKEL

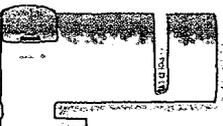

Available in 223 Remington, 243 Win, 270 Win, 30-06 Sprg, 308 Win, 7.62x39mm

MODEL 798™ SAFARI FEATURES

- Mauser 98 sporter platform
- Non-rotating claw extractor
- Controlled round feeding
- Fixed-blade ejector
- Solid steel hinged floorplate magazine
- Realwood™ laminated stock
- 22" rifle sighted blued Safari barrel
- Drilled and tapped for scope mounts

Realwood™ is an amazing blend of strength and stunning good looks, combining the durability of laminated wood with the rich appearance of highly figured walnut.

MODEL 700™ SPS VARMINT

TRUE TO ITS
REPUTATION,
IT'LL EARN YOU ONE.

"Why yes, that's really five shots." Tell your friends it's genetics. Fact is, when it comes to precision, there's no finer pedigree in the industry than Remington® varmint rifles. And with the introduction of our new Model 700™ SPS™ Varmint, staking claim to our legendary accuracy is a more attainable feat than ever.

The Model 700 SPS Varmint is capable of punching tiny groups straight out of the box because it's built on the Model 700 action, the most solid, dependable and trusted in existence.

Its 26" heavy contour barrel is perfectly matched to its high-velocity caliber offerings, including the hot new 17 Remington Fireball. Plus, the ergonomically designed black synthetic stock has a vented beavertail fore-end for enhanced grip, reduced weight and better heat dissipation. And sharp predator eyes won't spot the tough, non-reflective matte blued finish on the barrel and receiver. Other standard features include a hinged floorplate magazine, sling swivel studs, and a drilled and tapped receiver. The Model 700 SPS Varmint is destined to leave a lasting impression on any varmint that crosses its line of sight.

MODEL 700™ VARMINT RIFLES

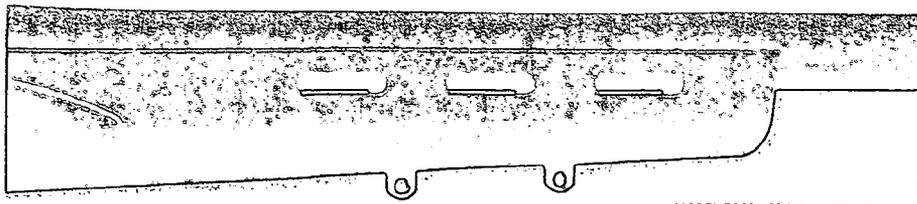

STUNNING
FROM THE BENCH,
LETHAL IN THE FIELD.

Built on the famous Model 700™ cylindrical action, Remington® Varmint rifles are the most accurate production rifles we produce. You'll be stunned by the degree of precision you get straight out of the box. The varmints won't be so lucky.

The **Model 700 VL SS™ TH** features a thumbhole stock design for enhanced stability and comfort. Offering great looks and exceptional durability, the stock is crafted of laminated wood. Vents in its widened fore-end facilitate rapid cooling of the heavy-contour stainless barrel, so you can keep driving tacks with any one of three hot varmint chamberings.

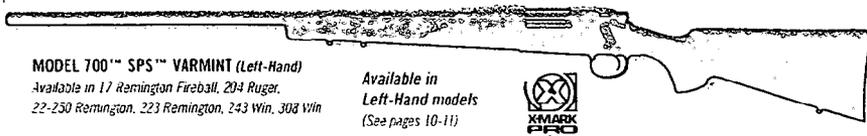

There's also the **Model 700 VS SF™ II**, a finely tuned machine with full-length aluminum bedding block that creates an ultra-stable, accuracy-enhancing platform. Further improving its shot-to-shot consistency is a 26" heavy contour barrel that's fluted for rapid cooling. Its H.S. Precision composite stock is reinforced with aramid fibers and features a contoured beavertail fore-end, ambidextrous finger grooves and a palm swell. Twin front swivel studs accommodate a sling and a bipod.

For those who prefer the more traditional varmint rifle, there's the time-tested **Model 700 VLS™** with its classic laminated stock and satin-blued barrel. Last but not least is the **Model 700 VSF™** with its distinctive desert tan stock with black webbing. All offer the highest level of out-of-the-box accuracy for your small-target pursuits.

MODEL 700™ SPS™ VARMINT

Available in 17 Remington Fireball, 204 Ruger, 22-250 Remington, 223 Remington, 243 Win, 308 Win

MODEL 700™ SPS™ VARMINT (Left-Hand)
Available in 17 Remington Fireball, 204 Ruger,
22-230 Remington, 223 Remington, 243 Win, 308 Win

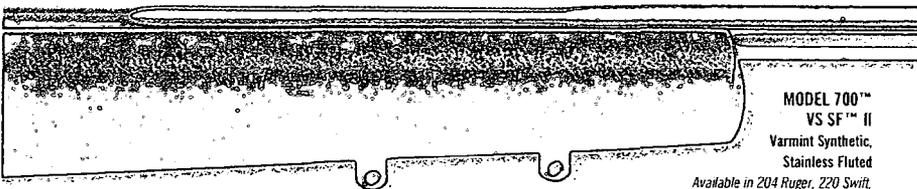

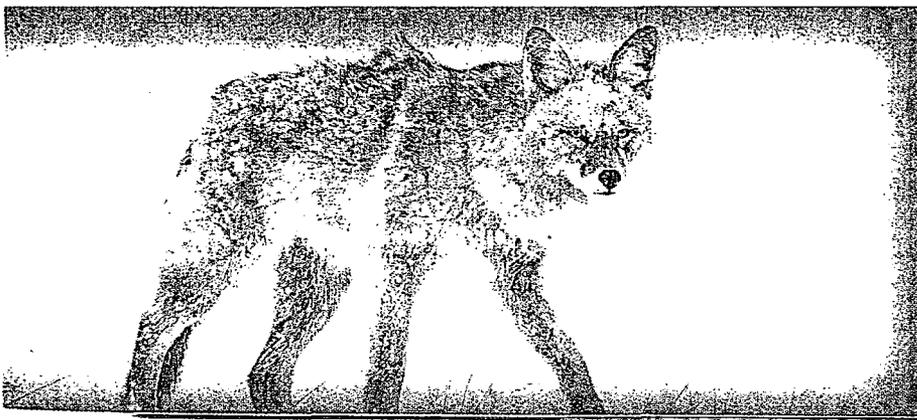

Available in
Left-Hand models
(See pages 10-11)

For model specifications, see page 38.

FEATURES

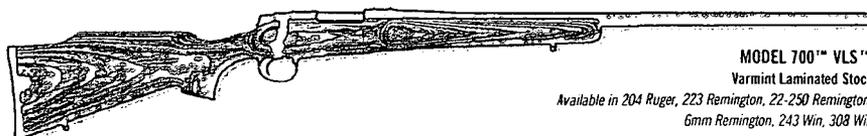

- Newly designed SPS Varmint stock with vented beavertail fore-end
- Dual front sling swivel studs included (one rear)
- 26" heavy-contour barrel (0.820" muzzle O.D.)
- Legendary Model 700™ action
- Drilled and tapped for scope mounts

MODEL 700™ VS SF™ II

Available in 22-250 Remington

MODEL 700™ VARMINT

FEATURES

All features of the legendary Model 700 plus:

- 26" heavy contour barrel (0.820" Muzzle O.D.) most models, for the ultimate in long-range accuracy
- Concave target-style barrel crown
- Either composite or laminate stocks
- Stock features full-length aluminum bedding block for enhanced stability and shot-to-shot consistency (VS SF™ II and VSF™ only)
- Six longitudinal flutes reduce barrel weight and increase heat dissipation (VS SF™ II and VSF™ only)
- Tactical style dual front swivel stud system for convenient mounting of bi-pod and sling (VS SF™ II and VSF™ only)

Bi-Pod and Sling Swivel Studs

MODEL SEVEN™ PREDATOR®

**FLOAT LIKE A BUTTERFLY,
STING LIKE A FREIGHT TRAIN.**

A dream to handle, our compact Model Seven™ Predator® is officially every predator and varmint's worst nightmare. The new Model Seven Predator weighs in at 7 lbs. and is decked from butt to bore in Mossy Oak® Brush® camo to surpass your needs for mobility and concealment. Much like our legendary Model 700™ action, the Model Seven platform will amaze you with its accuracy right out of the box.

The Predator's fluted, magnum-contour 22" barrel promotes awesome long-shot repeatability and cools quickly when the action heats up. Speaking of hot, the lineup of calibers, including our 17 Remington Fireball at 4,000 fps is sure to light 'em up. Our X-Mark Pro™ Trigger system delivers a level of shot control and crispness unrivaled by any other factory system. And the rugged synthetic stock features an R3® recoil pad to dramatically enhance shooting comfort.

MODEL 770™ STAINLESS CAMO

**READY TO HUNT,
RIGHT OUT OF THE BOX.**

It's the latest, greatest edition of out-of-the-box accuracy and hunting performance from Remington – now in stainless steel with a rugged Realtree® AP™ HD™ camo stock. An upgrade of our famous Model 710,™ the new Model 770™ is the perfect choice for any hunter looking to fast-forward through the process of selecting a scope and components. It comes with a pre-mounted and boresighted 3-9x40mm riflescope. But most importantly, it's built to our rigorous standards for accuracy and reliability. Simply choose your ammo and you're ready to shoot.

It features the same great action and barrel as our Model 710 (based on the Model 700™) with super-accurate button rifling, and a more durable magazine latch. Other advancements include a new, ergonomically contoured stock with a raised cheekpiece for rapid scope-to-eye alignment, and grips are textured in all the right places for superior shot control.

Offered in a selection of long- and short-action calibers, the Model 770 is the quickest route to legendary status, and a full freezer.

MODEL 597™

**LIGHTNING STRIKES
TILL YOU RUN
OUT OF AMMO.**

The speed with which they zip out rounds is rivaled only by the striking appearances of these three new additions to our venerable, semi-auto rimfire lineup. Easily the most advanced rimfire rifle ever built; the Model 597™ represents the first technological breakthrough in the category in 35 years. Our new rifles have all the standard features that have made the originals an American favorite, but with some notable upgrades.

Because our Model 597 action is the ultimate in feeding reliability and out-of-the-box accuracy, it was only natural we develop the **Model 597™ TVP™ (Target-Varmint Plinker)** to take full advantage of the superior design. Truly the ultimate 22 target-rifle platform, this tack-driver features a 20" stainless heavy barrel and a rugged laminated thumbhole stock that's contoured to accommodate right- and left-handed shooters with equal comfort. The impeccable balance of our new stock design will shine the first time you try an offhand shot. Trust us, one squeeze of the trigger and you'll be a believer. Its receiver is equipped with a factory-mounted scope rail so you can add optics and be ready to shoot in a flash.

Our **Mossy Oak® Blaze Orange** camo and **Mossy Oak Pink** camo Model 597 will turn heads with their hot new looks, then proceed to make jaws drop with their astounding ability to punch tiny groups in fast-forward. Both have 20" carbon steel barrels and TruGlo® fiber-optic front sights.

MODEL FIVE™ RIMFIRE

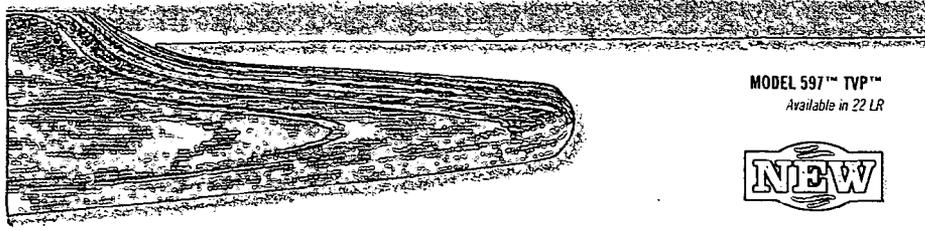

**THE NEXT LEVEL OF RIMFIRE,
FOR SHOOTERS OF ANY LEVEL.**

Remington® rimfire rifles are built with the same standards for accuracy and flawless function as our high-end centerfires. For hunting small game, target shooting or afternoon plinking, there's no better choice.

Our **Model Five™** is a solid, extremely accurate bolt action ideal for seasoned hunters and shooters, and beginners alike. It's available in standard 22 long rifle, 22 WMR and, new to the lineup, 17 HMR. This caliber's super velocity and flat trajectory matched with our tight-grouping Model Five platform make it a serious performer at the range and in the field. The American-made brown laminated stock combines good looks with extreme weather resistance. Mount a scope to its grooved receiver or use the fully adjustable open sights. It's fed by a five-shot detachable box magazine.

The new downsized **Model Five Youth** is specially engineered for young shooters. Its stock is shortened a full inch, plus we trimmed the fore-end to ensure optimum balance. Equipped with a world-class hammer-forged barrel shortened to 16 1/2" for easy pointing, along with fully adjustable rifle sights, it'll have your youngster driving tacks in no time.

MODEL 597™ TVP™
Available in 22 LR

MODEL 597™
BLAZE CAMO
Available in 22 LR

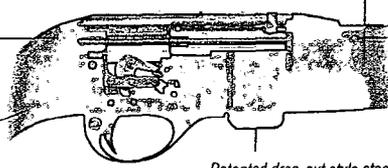

MODEL 597™
PINK CAMO
Available in 22 LR

Unique attachment system rigidly joins barrel to receiver for perfect alignment and enhanced accuracy

Model 597™ bolt travels on twin tool-steel guide rails for flawless functioning

Last-shot hold-open for positive identification of empty chamber

Sear and hammer are Teflon®/nickel-plated for crisp, smooth trigger pull

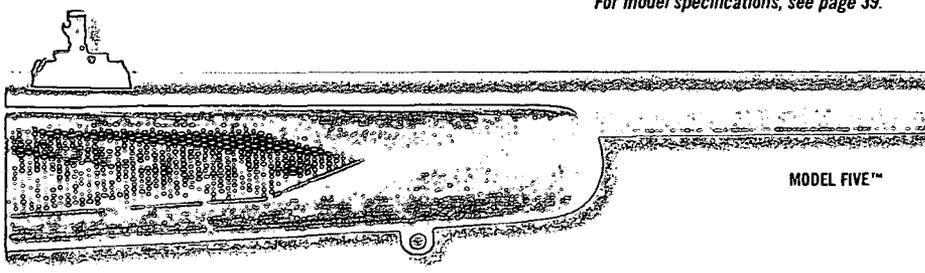

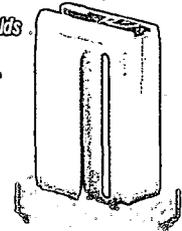

Patented drop-out style staggered-stack box magazine assures reliable feeding and fast, easy reloading

For model specifications, see page 39.

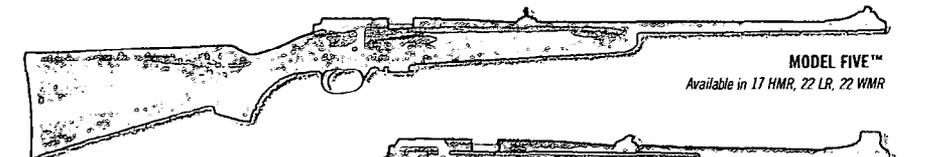

FEATURES

- Bolt-guidance system features twin, tool-steel guide rails
- Offered in both textured/finish synthetic or laminated wood stocks
- Non-glare matte finish
- Patented, 10-shot metal detachable magazine, 8-shot for magnum
- Last-shot hold-open bolt for added safety
- TruGlo® fiber-optic sights on camo models
- Scope rail included on Model 597™ TVP

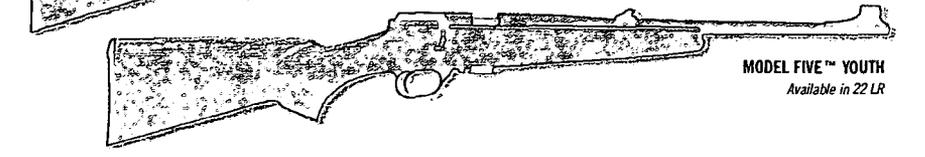

Model 597™ 22 LR Metal Magazine. Redesigned to provide flawless feeding of each round, the new Model 597 magazine offers unprecedented reliability. Constructed from a lightweight, magnesium-based alloy and cast as one piece via a non-conventional die-cast process, our metal magazine holds ultra-precise dimensional tolerances and yields an exceptional surface finish. Its extreme rigidity is ideal for demanding, high-volume use. For those who already own an older Model 597, you can own the improved magazine as a Remington® accessory.

MODEL FIVE™

MODEL FIVE™
Available in 17 HMR, 22 LR, 22 WMR

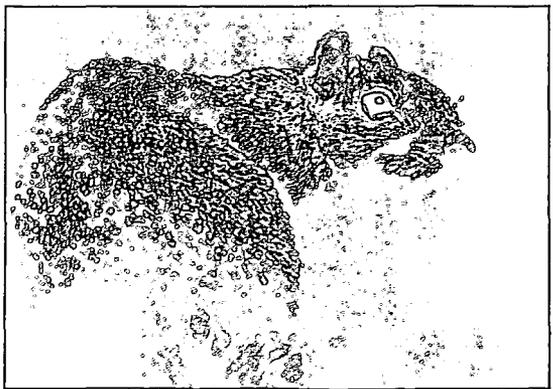

MODEL FIVE™ YOUTH
Available in 22 LR

MODEL FIVE™ YOUTH FEATURES

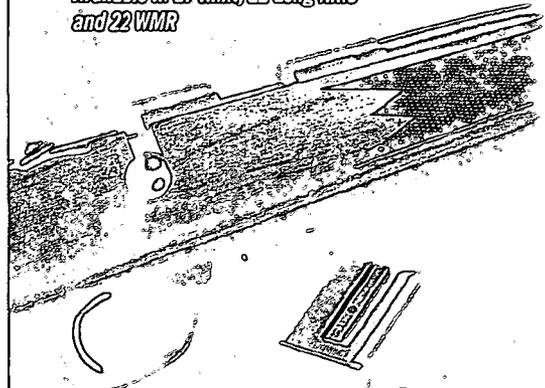

- Hardwood stock
- 12 3/8" length of pull
- 16 1/2" blued barrel
- Five-shot detachable magazine
- Also includes single-shot false magazine

For model specifications, see page 39.

MODEL FIVE™ FEATURES

- Smooth bolt action
- 22" blued barrel
- Five-shot detachable magazine
- Adjustable rifle sights
- Receiver grooved for scope mounts
- Available in 17 HMR, 22 Long Rifle and 22 WMR

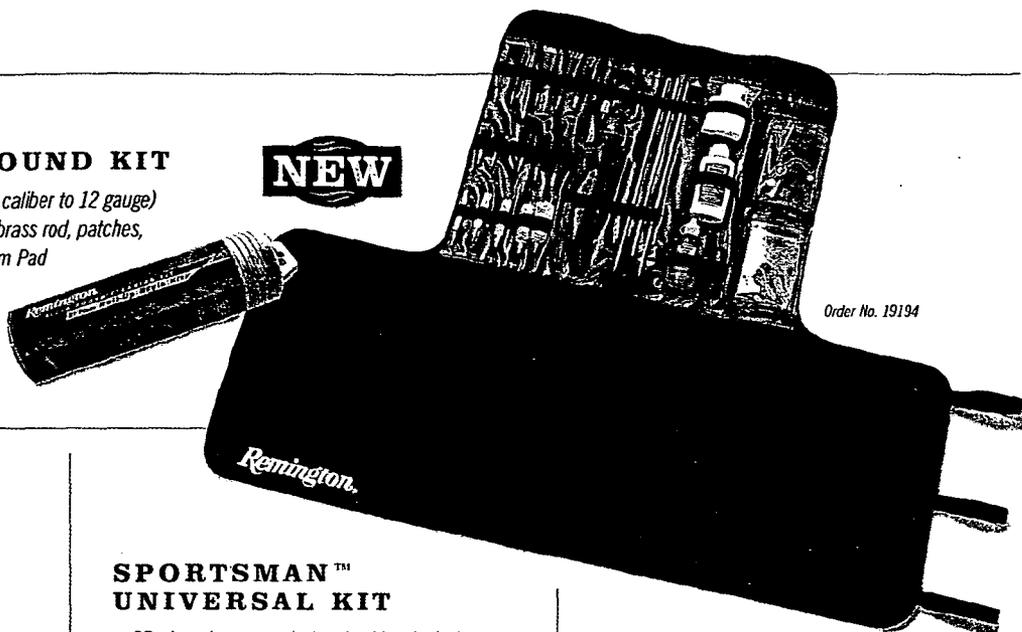

Five-shot detachable magazine box

GUN CARE

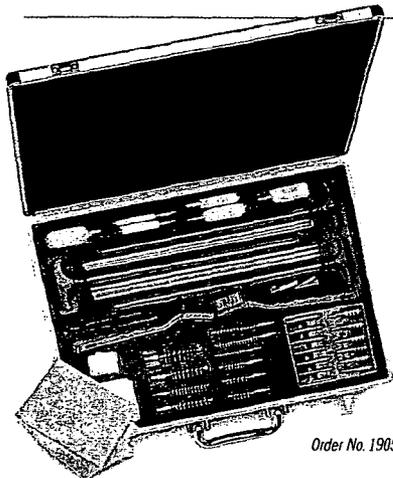

UNIVERSAL ALL-A-ROUND KIT

- Cleans all your shotguns, rifles & pistols (.22 caliber to 12 gauge)
- Contains an assortment of brushes, 3 piece brass rod, patches, patch puller, & waterproof/stain resistant Rem Pad
- Portable cleaning station packaged in a polyethylene storage tube that both hangs on a peg or sits on a shelf for convenience

NEW

Order No. 19194

Order No. 19055

TARGETMASTER™ DELUXE KIT

- 52-piece (true count) kit has all you need – includes 100 patches
- Sturdy aluminum case with positive latches
- 3 sets of 3-piece rods: Rimfire rod (.17-.22), Centerfire rod (.22 and up) and Shotgun/muzzleloader rod
- Precision brass patch jags fit .17-.50 calibers
- Adapters allow for cleaning of handguns (.17-.50)
- Solid assortment of brushes/mops and accessories

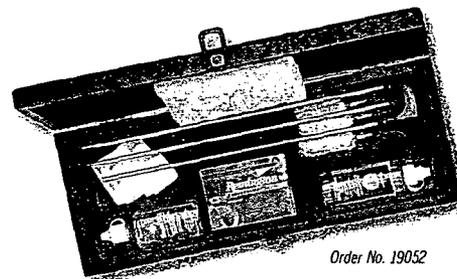

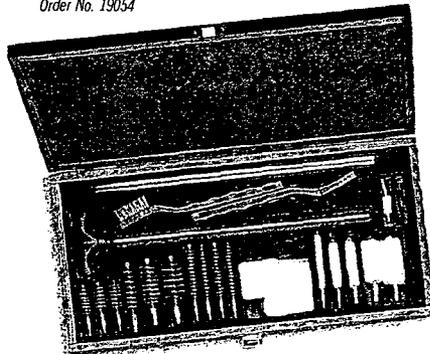

SPORTSMAN™ UNIVERSAL KIT

- 27-piece (true count) cleaning kit – includes 50 patches (.22 caliber to 12-gauge)
- 3-piece brass rod accepts standard #8-32
- Integral swivel handle
- An assortment of most popular brushes, mops, and patch sizes
- Brass and nylon brushes for cleaning actions, bolts, cylinders and semi-auto slides

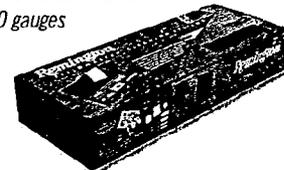

Order No. 19054

Order No. 19052

FIELDMASTER® KIT

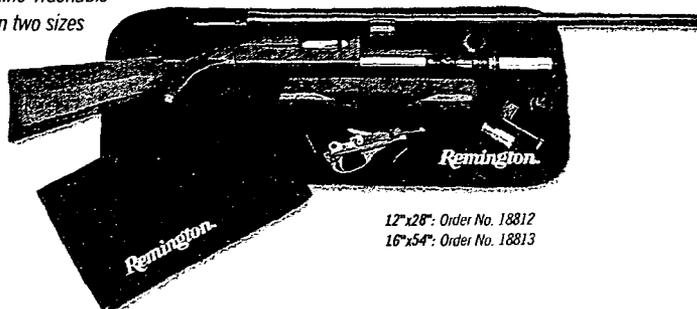

- Brass 3-piece rod with swiveling handle
- Rem® Oil (1-oz.) & Brite Bore™ (2-oz.)
- A wide variety of patches and patch pullers
- Brass pistol and shotgun adapters
- An assortment of bronze bore brushes for 22, 270 and 30 calibers as well as 12 and 20 gauges
- Attractive wooden box

Remington cleaning kits readily accept standard #8-32 cleaning brushes, mops, jags, and standard shotgun brushes/mops. (The rimfire rod in the Targetmaster accepts .17 components, and has an adapter for #8-32 accessories.)

REM® PAD GUN CLEANING MATS

- Soft, acrylic surface material won't scratch guns or tabletops
- Absorbent top material traps and holds up to eight times its weight in fluids
- A non-slip vinyl bottom forms a barrier to prevent spilled fluids from soaking through
- Fully machine-washable
- Available in two sizes

17"x28": Order No. 18812
16"x54": Order No. 18813

Order No. 19495

BORE LIGHT

- Ideal for inspecting used firearms, cleaning firearms and inspecting bore for obstructions
- LED light eliminates intense glare allowing for better viewing
- Compact – easy to carry and stow
- Comes complete with batteries
- Includes both curved and straight light tubes

BRITE BORE™ SOLVENT

- Dissolves carbon and powder fouling, removes copper, lead and plastic deposits
- Low odor – contains no CFC's
- Handy size for field/range use
- Comes in:
 - 6 oz. can: Order No. 18394
 - 4 oz. jar: Order No. 18385
 - 2 oz. bottle: Order No. 18367

40-X™ BORE CLEANER

- Formerly Remington Bore Cleaner
- 40-X name ties into the products origins in Precision Benchrest Shooting
- Product is uniquely formulated for rifles to improve cleaning, accuracy and performance
- Fast and easy to use – no soaking or foul odors
- White positive closure cap similar to 1-oz. Rem Oil
- Comes in:
 - 2 oz. white oval bottle with child-resistant cap: Order No. 18359
 - 4 oz. squeeze bottle: Order No. 18397

REM® ACTION CLEANER

- Easily cleans dirt, powder residue and caked-on lubricants from disassembled actions and fire-control mechanisms
- Dries quickly and leaves no residue
- Comes in 10.5-oz. can with jet-spray extension tube

REM® DRILUBE™

- Teflon-based lubricant provides a tough, non-congealing film without the residue of dry graphite lubes
- Keeps firearms functioning dependably to -40°F
- Comes in easy-to-use 4-oz. aerosol can

SHOTGUN CLEANER

- Cleans trigger groups, gas ports, choke tube threading, receivers, chambers, barrels and magazine tubes
- Dissolves powder residue, fouled lubricants, burnt carbon deposits and gunk
- Blasts away gummy caked on grime from hard to reach areas such as ejectors, firing pin assemblies, trigger components and bolt recesses
- Contains no CFC's or carcinogens – safe for polymers
- 18-oz. size

Order No. 18472

Order No. 18396

Order No. 18395

REM OIL 1-OZ. PRE-LOADED MERCHANDISE STRIPS

- 4-color merchandising strips come pre-loaded to save time and labor
- Features popular Rem Oil 1-oz. product at a great price point for impulse purchases
- 12 units per merchandising strip
- 3 different merchandiser strips in each case

Order No. 18365

REM® OIL WIPES

- 6" x 8" wipe cloth saturated with Rem Oil
- Comes in:
 - 12 Count Clamshell: Order No. 18411
 - 100 Count Display: Order No. 18473

REM® OIL

- Cleans dirt and grime from exposed metal surfaces while displacing non-visible moisture from metal pores
- Protects internal and external metal parts from rust and corrosion
- Exclusive Teflon formula provides a thin, long-lasting film that keeps actions working smoothly by reducing metal-to-metal wear
- Comes in:
 - 10 oz. aerosol can: Order No. 24027
 - 4 oz. aerosol can: Order No. 26610
 - 2 oz. bottle with child resistant cap in footed clamshell: Order No. 18366
 - 1 oz. squeeze bottle in footed clamshell: Order No. 26617

GUN CARE

WINGMASTER HD™

DROP-DEAD BETTER.™

The company that redefined lethal shotgun range with Premier® Hevi-Shot® is proud to unveil the next generation of heavy-density devastation. New Wingmaster HD.™

This hard-hitter stretches the kill zone with an ultra-tuned combination of density, shape and energy. At 12.0 grams/cc, it's 10% denser than lead and the scientifically proven optimum density for pellet count and pattern density. Plus, its smooth, round shape delivers awesome aerodynamics and sustained payload energy. It all adds up to the most devastating patterns possible.

Wingmaster HD is also 16% softer than Premier Hevi-Shot, which makes it easier on your barrel. And it's more responsive to chokes, allowing you to open up the pattern for close-range hunting or stretch shotgun range to its farthest reaches.

Absolutely no shotshell on the market can touch Wingmaster HD at long range. All of its revolutionary characteristics – optimized density, ultra-round shape and consistent size – come together on game with an unmatched level of deadly force. Fact is, it penetrates 40% deeper than Premier Hevi-Shot at long range and will put 60% of its pellets in a 30" circle at 60 yards. Waterfowl, turkey and varmints who think they know harm's reach have another thing coming. New Wingmaster HD.

FEATURES

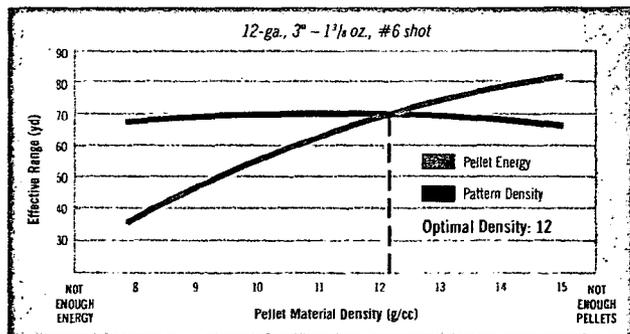

- HD = Heavy Density (12.0 g/cc)
- Proprietary composite of Tungsten-Bronze-Iron
- Round, consistent pellets:
 - Travel straighter and longer
 - Improve long-range lethality
 - Tighter patterns
 - More even pellet distribution
- Uniform pellet density
- 12.0 g/cc density for optimal combination of density and pellet count
- Softer pellets are easier on your barrel and more responsive to chokes
- Better patterns at long and short ranges
- Approved for waterfowl hunting by the USF&W and Canada
- Responds to chokes; more lethal than lead

THE ULTIMATE EXTENDED-RANGE PAYLOAD

Denser patterns • Devastating pellet energy • Flies true – near perfect shape

12.0 G/CC – MOST LETHAL PELLET MATERIAL DENSITY

Testing proves Wingmaster HD™ delivers the best combination of pellet energy and pattern density.

UNIFORM PELLET-TO-PELLET WEIGHT

Wingmaster HD's (Heavy Density) smooth, round shot pellets are more aerodynamic than other lead alternatives. They are uniform in pellet-to-pellet weight and are true to listed shot size.

Other non-toxic shot pellets cannot match up.

Non-toxic and 10% denser than lead, it's the most lethal choice whatever you're shotgunning for.

LEAD MAGNUMS

PREMIER® HIGH VELOCITY MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

The high-performance lead load for avid turkey hunters. 3" and 3 1/2" 12-gauge payload leaves the muzzle at 1,300 fps. Delivers hard-hitting knockdown power. Loaded with our Power Piston® one-piece wad and Magnum-grade Copper-Lokt® lead shot for dense patterns and deep penetration.

PREMIER® MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

Our original Magnum turkey loads. As fine a lead shotshell as you can carry in the woods. Magnum-grade Copper-Lokt® shot is cushioned with special polymer buffering and further protected by our Power Piston® one-piece wad for dense, even patterns. Delivers superb performance and devastating knockdown power out of tightly constricted turkey chokes.

NITRO MAG® BUFFERED MAGNUMS.

Excellent for turkey or long-range pheasants. Heavy payloads of Magnum-grade shot are packed with polymer buffering and enclosed in our patented Power Piston® one-piece wad to provide dense, even patterns and uniform shot strings.

PREMIER® DUPLEX® MAGNUM COPPER-PLATED BUFFERED LOADS.

A specialized layering of Magnum-grade Copper-Lokt® No. 4 shot over No. 6 shot. Larger pellets deliver excellent retained energy and penetration, while smaller pellets enhance pattern density. Awesome versatility for uncertain shooting distances on turkeys and late-season pheasants.

TARGET LOADS

PREMIER® NITRO 27® HANDICAP TRAP LOADS.

Designed for long-yardage trapshooting and long-range sporting clays, our custom powder blend, Power Piston® wad and Premier® STS® primer mix have improved the Nitro 27's performance, allowing more consistent velocities, 15% better pattern performance and softer recoil. So if you're looking for tremendous target-breaking performance choose the improved Nitro 27.

GUN CLUB™ TARGET LOAD LINE.

An excellent choice for economical shooting. These high-quality shells are loaded with the same care as our top-of-the-line STS® loads and feature a Power Piston® wad and the reliable STS® Primer mix. Many shooters are discovering that they can get acceptable reloading life while stretching their shooting dollar.

PREMIER® STS® TARGET.

The standard in target shooting reliability. Absolutely consistent from shot to shot. Bar none, the most reliable, most reloadable shells you can shoot. Available in 12, 20, 28 and 410.

MANAGED-RECOIL™ STS® TARGET. Dramatically reduced recoil – 40% less in the 12-ga. load – with target-grinding STS® consistency and pattern density. Ideal for new shooters and recoil-sensitive individuals.

GRAND DOMINATION

COMPETITORS AT THE GRAND CHOOSE REMINGTON® AS THEIR WINNING AMMUNITION.

Great champions think alike. For the fifth year in a row, shooters who used Remington shells won more trophies than competitors using other brands at the 2006 ATA Grand American World Trapshooting Championship. And for good reason! Remington STS® and Nitro 27® target loads

provide softer recoil, better pattern performance, and more consistent velocities (not to mention the most reloadable hull on the market). Isn't it time you switch to Remington and step into the winner's circle?

COMPONENTS

REMINGTON® RELOADING COMPONENTS.

If you reload your own cartridges, then you shouldn't settle for anything but the best reloading components in the business – Remington. We offer industry-leading products that are changing the way sportsmen think about reloading.

More accurate. Our unique manufacturing process eliminates jacket stretch for near-perfect wall thickness which results in better flight stability.

More versatile. A 20% heavier jacket engineered with an innovative wall profile provides better expansion and penetration over a broad range of terminal velocities.

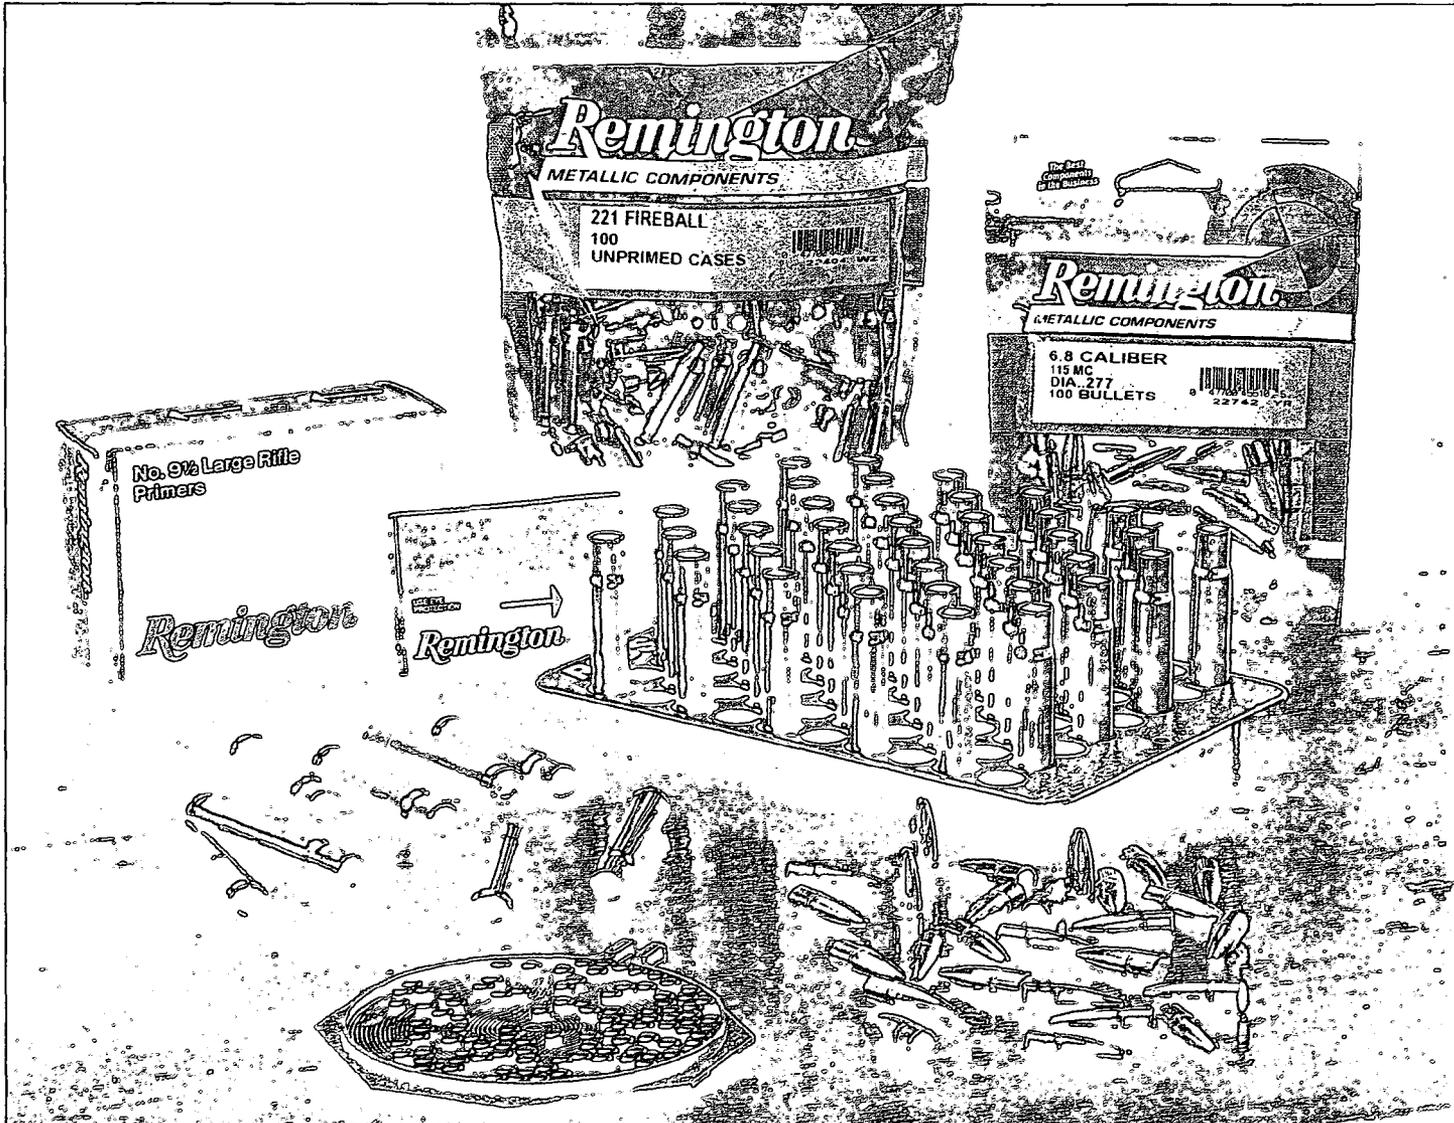

More reliable. 50% thicker Core-Lokt section increases mechanical locking of the rear core into the jacket and better controls expansion at higher velocities.

More deadly. Bonded jacket/core design further insures controlled expansion (2x diameter) with up to 95% weight retention for ultimate on-game performance.

PREMIER™ CORE-LOKT ULTRA BONDED® BULLETS. World-class accuracy and unmatched reliability on-game were just two of the many reasons our handloading customers demanded Core-Lokt Ultra Bonded bullets. We're proud to offer them as components this year.

MANAGED-RECOIL™

REDUCE RECOIL TO IMPROVE YOU

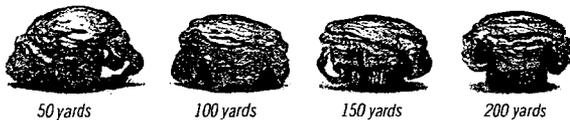

At some point, all shooters feel the negative effects of recoil. Some hunters experience the frustration of missing a target because of flinching. Others know the aggravation of losing the opportunity for a second shot because of the time it takes for scope recovery. Then there's the shoulder pain after a day of hunting or practicing, which may deter future practice sessions. To fight these effects of recoil, Remington® developed Managed-Recoil™ ammunition.

The Managed-Recoil ammunition succeeds where other recoil-control ammunition fails. Past attempts at curbing recoil have focused solely on the amount of gunpowder in the ammunition. Remington's Managed-Recoil focuses on the entire cartridge by incorporating a specially designed bullet built to perform at lower velocities.

FEATURES

- Fully effective hunting performance with less than 50% of the recoil of standard cartridges
- Less anticipation of recoil
- Increased shooter confidence and improved shot placement
- Quicker scope recovery for faster second shot placement
- Point of aim is within 2" of a standard cartridge at 100 yards
- Target practice without the recoil pounding
- Specially designed bullets are optimized to deliver 2x expansion with over 75% weight retention on shots out to 200 yards

FULLY EFFECTIVE ENERGY AND EXPANSION OUT TO 200 YARDS:

50 yards 100 yards 150 yards 200 yards

M A N A G E D - R E C O I L

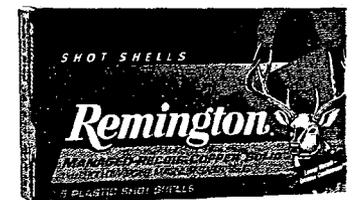

YOUTH AND WOMEN. Managed-Recoil™ allows youth and women to practice and hunt effectively and comfortably with half the recoil. It even lets you use an existing gun without readjusting the scope because "point of aim — point of impact" is nearly identical to standard cartridges at 100 yards.

PRACTICE MAKES PERFECT. For target shooters and hunters who target shoot to improve their performance, Managed-Recoil cartridges provide more time on the range, without the bruises to prove it. It offers great hunting performance at ranges out to 200 yards, and you can switch to full-power ammunition without scope adjustment.

MANAGED-RECOIL™ COPPER SOLID™ SABOT SLUG.

The best-selling terminal performance and accuracy of our Copper Solid Slugs is now available in Managed-Recoil loads. With 40% less recoil, they're perfect for anyone who wants outstanding on-game results without the rearward punch.

Or, use them to sight-in, then step up to full loads. There's no finer slug load for young or recoil-sensitive hunters.

NEW

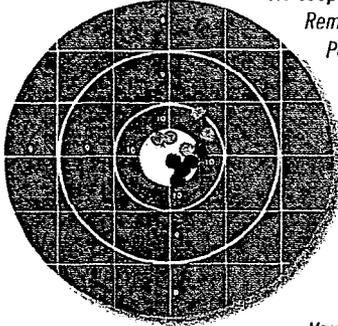

MANAGED-RECOIL™ SLUGGER RIFLED SLUG.

Managed-Recoil™ Slugger® Rifled Slugs offer remarkably effective performance but with 45% less felt recoil than full velocity Sluggers. With effective energy out to 80 yards, these 1-ounce slugs easily handle the majority of shotgun deer hunting ranges. Also check out Managed-Recoil Buckshot; it's an ideal close-range performer.

MARKSMANSHIP IN THE FIELD.

No scope readjustment necessary.
Remington® Managed-Recoil™
Point of Impact is nearly identical
to full velocity loads.

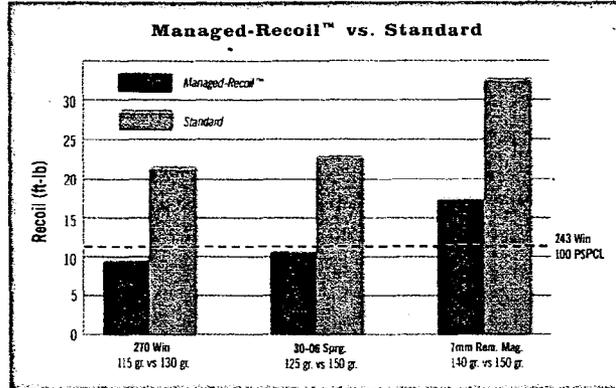

Point of impact comparison
at 100 yards.

- 30-06 Sprg. 125-grain Managed-Recoil™
- 30-06 Sprg. 150-grain PSP Core-Lokt™

May not operate all recoil or gas-operated firearms

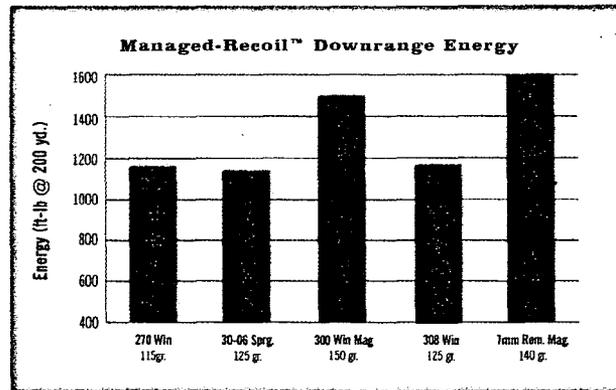

50% LESS RECOIL

Remington® Managed-Recoil™ centerfire cartridges deliver 50% less recoil than standard velocity ammunition. Managed-Recoil 270 Win, 308 Win and 30-06 actually deliver less recoil than a standard velocity 243 Win!

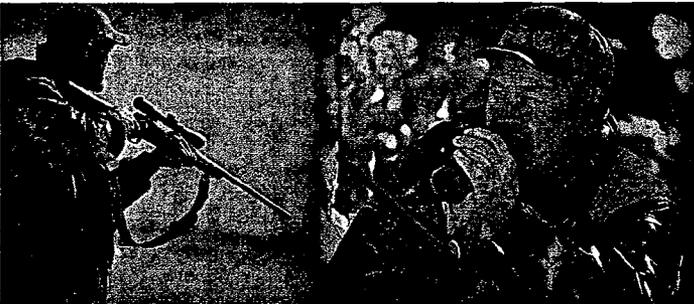

LETHAL PUNCH OUT TO 200 YARDS

Managed-Recoil™ rounds pack a lethal punch at the most common deer-hunting ranges. In fact, their energy levels exceed 1,100 ft.-lb. at 200 yards. Managed-Recoil 30-30 delivers 919 ft.-lb. at 100 yards and is fully effective on deer sized animals out to 125 yards.

A P P L I C A T I O N S

HUNTING WITH CONFIDENCE. Most hunting shots are taken well within 200 yards. Managed-Recoil™ cartridges provide effective performance, with less than half recoil. The result is less anticipation of recoil, better shot placement and quicker recovery.

RECOIL-SENSITIVE HUNTERS. For shooters that are unable to tolerate the recoil of a standard cartridge, Managed-Recoil™ Cartridges are the perfect solution. Effective performance with half the recoil.

MANAGED-RECOIL™ BUCKHAMMER® LEAD SLUGS. Managed-Recoil™ Technology has been applied to Remington's most devastating lead slug. We've reduced felt recoil by over 40% to make the BuckHammer® easier on the shooter without sacrificing its on-game performance. The Managed-Recoil BuckHammer 12-gauge slug travels at a fast 1,350 fps at the muzzle and maintains an impressive 1,032 ft.-lb. of deer-stopping energy at 100 yards. The 20-gauge, at 1,275 fps., delivers 746 ft.-lb. of energy at 100 yards. Standard BuckHammer and Managed-Recoil BuckHammer slugs are designed for use with fully-rifled barrels or rifled choke tubes.

NEW 300 REMINGTON® ULTRA MAG POWER LEVEL AMMUNITION.™

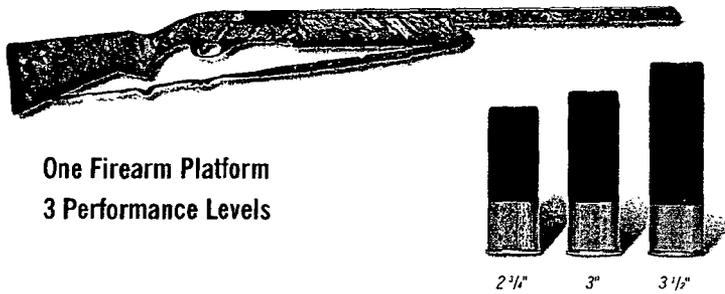

One gun. One chambering. The ballistic characteristics of three cartridges.

NEW The flattest-shooting, hardest-hitting .30 caliber in history is now the world's most versatile cartridge. New Power Level Ammunition allows you to incrementally tailor the performance of your rifle and ammunition to match your intended game species and hunting range, similar to the way shotgunners use 2 1/4", 3" and 3 1/2" loads. The point of impact between Power Level loads stays within 2" out to 200 yards, so you'll have little to no scope adjustment when changing Power Levels. Now when you choose the 300 Remington Ultra Mag you're getting 3 guns in one. Simply put, never before has one cartridge offered this kind of versatility.

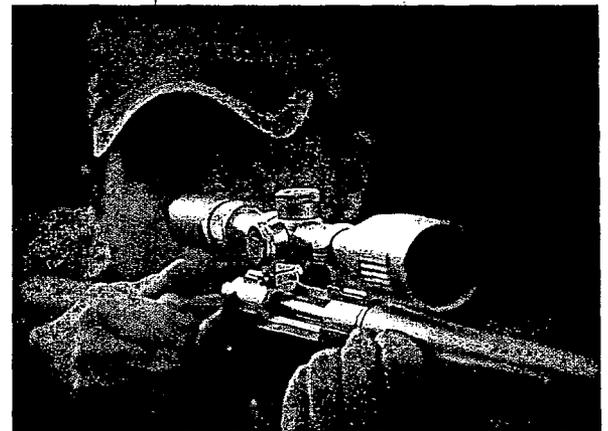

POINT OF IMPACT ACROSS ALL POWER LEVELS WITHIN 2", OUT TO 200 YARDS.

POWER LEVEL III EXTREME

- 300 Remington Ultra Mag performance
- The biggest, toughest game at extreme ranges

Simply the biggest, baddest, flattest-shooting 30 caliber in production today. At 200 yards, it delivers 485 ft.-lbs. more energy than the 300 Wby Mag and 28% more energy than the 300 Win Mag or 300 WSM.

POWER LEVEL II EXTENDED

- 300 Win Mag, 300 WSM performance
- Medium and large big game at extended ranges

With velocity and down range ballistics that mirror the 300 Win Mag and 300 WSM, Level II is ideal for elk, muleys or whitetails at extended range.

POWER LEVEL I TERMINAL

- 30-06 performance
- Whitetail-sized game out to long range

Performs identically to the 30-06, the caliber that's dropped more big game than any other. The optimum deer hunting Power Level - coast to coast.

PREMIER® ACCUTIP-V™

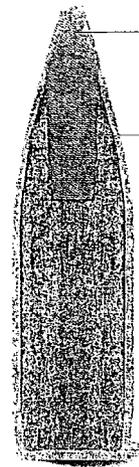

PINPOINT DETONATION. Expect dynamite results. In varmint calibers.

AccuTip-V™ combines superb flight characteristics and match-grade accuracy with a design optimized for explosive on-game results. At impact, AccuTip's gold polymer tip is driven rearward causing the thin jacket and soft lead core to fragment violently. First and foremost, though, it gets there precisely shot after shot – it's the most accurate varmint bullet you can shoot.

NEW

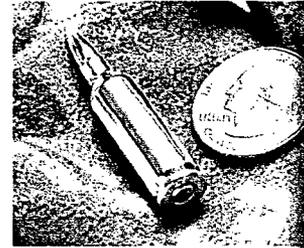

NEW 17 REMINGTON FIREBALL. LIGHTING UP SMALL TARGETS AND THE WORLD OF SMALL-CALIBER PERFORMANCE.

It's time you warmed up to 4,000 fps velocities, extreme accuracy and less cleaning. The next generation of small-caliber performance is here for 2007. The Remington-exclusive 17 Remington Fireball. It breaks the 4,000 fps barrier with one of the smallest powder charges ever – this means less fouling and more shots between cleanings. It's a super-efficient case design that, when matched with our 20-grain AccuTip-V, shoots flatter than a 22-250 Remington 55-grain loading. Plus, there's virtually no recoil or muzzle jump, so you never lose sight of your target. Based on the 17 Mach IV wildcat (a necked-down version of our 221 Remington Fireball) which has been a favorite for several years due to its inherent speed and accuracy, we're proud to say we've made the design a little better, and made it our own. The new 17 Remington Fireball.

Gold polymer tip acts as a wedge, splintering bullet into fragments at impact

Thin jacket and soft lead core disintegrate and cause massive terminal damage at all ranges

The New Fireball. At 4,000 fps, it'll look plenty big in the eyes of varmints and predators. Tiny powder charges mean more accurate shots between cleanings. And speed? You know what that does.

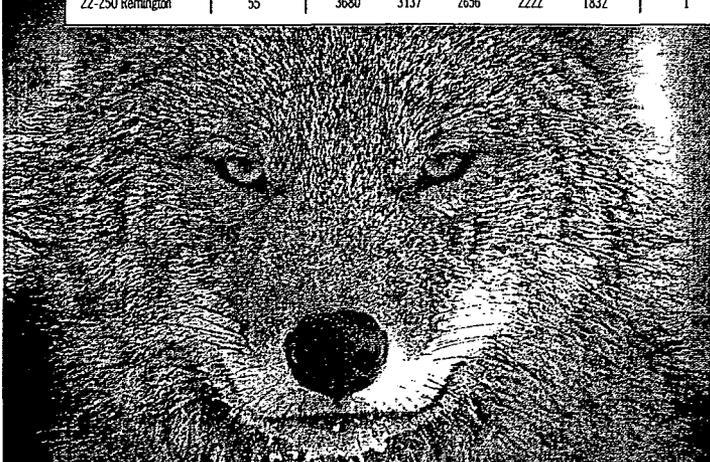

Warning: Keep Out of Reach of Children.

UMC® AMMUNITION

UMC® HANDGUN CARTRIDGES.

All UMC ammunition is American-made in Lonoke, Arkansas using first-quality factory-fresh brass and clean-shooting Kleanbore® primers to provide the best value for practice, personal defense and hunting.

UMC® RIFLE CARTRIDGES.

Made in the USA, value-priced and ideal for high volume shooting, our UMC centerfire rifle ammunition is loaded in seven popular calibers including the 30-06 Sprg, 308 Win, 7.62x39mm, 30 Carbine and 303 British. The 45 and 50 grain jacketed hollow point loads in 223 Remington and

22-250 Remington are perfect for varmint hunters.

UMC® LEADLESS™ HANDGUN CARTRIDGES.

A must have for shooters that frequent indoor ranges, economical UMC® LeadLess™ cartridges virtually eliminate lead exposure at the firing line. Specially designed bullet actually prevents the vaporization of lead from the bullet's base upon firing. Standard

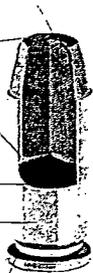

bullet weights duplicate the ballistics of conventional loads.

Nose profile designed to function smoothly in all action types

Full-length copper jacket

Powder blended for consistent velocity

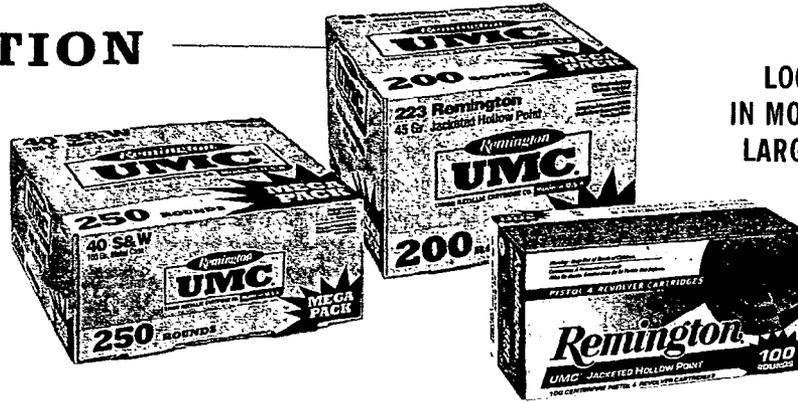

High-quality reloadable brass case

Solid lead core protected by thick copper jacket

Enclosed base virtually eliminates airborne lead at firing line

RIMFIRE

PREMIER® GOLD BOX™ RIMFIRE. Premium rimfire cartridges super-tuned for accuracy and terminal performance. Available in 17 Mach 2, 17 HMR and 22 Win Mag, Premier Gold Box Rimfire Ammunition is loaded with AccuTip-V™ polymer-tipped bullets for incredible shot-to-shot consistency, flat trajectory and explosive expansion. Upgrading your rimfire rifle or handgun is as easy as shooting the right ammo. Think Premier Gold Box.

COMPETITION/TARGET RIMFIRE. When it comes to competition-grade rimfire ammunition, there's only one name good enough to share the Remington® brand – Eley. A company with a reputation for the world's most accurate and reliable rimfire ammunition, Eley, Ltd. has teamed up with Remington to offer three grades of their premier 22 long rifle ammunition for the serious target shooter: Target Rifle, Club XTRA and the elite Match EPS. Remington Target ammunition offers the accuracy and economy for Match practice and developmental shooting.

RIMFIRE. Prairie dogs. Tin cans. Or a bulls-eye. No matter what you put in your sights, Remington® offers the perfect 22 rimfire ammunition for any occasion. Remington rimfire ammunition delivers the quality you expect. That's because we put the same level of care into making our rimfire ammunition as we do our centerfire ammunition, so you'll get the maximum performance from every shot.

CENTERFIRE MAGAZINE BOXES

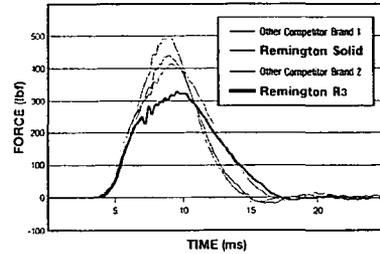

MODEL 770™
MODEL 710™ & MODEL 715™

R3® RECOIL PAD

Order No. 19469

- The ultimate in shooter protection
- Designed and manufactured using Remington R3, 3-step technology from LimbSaver™
- Relieves recoil over 30% better than conventional recoil pads
- Fits most Remington synthetic rifle and shotgun stocks

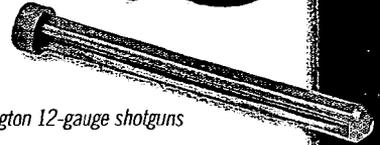

UNIVERSAL MAGAZINE CAP

- Fits all 12, 16 and 20 gauge Model 870's, Model 1100's and Model 11-87's
- Allows you to add a sling to your Remington shotgun

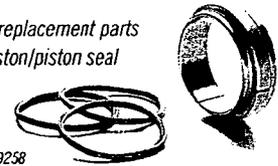

SHOTGUN PLUG

- Fits most Remington 12-gauge shotguns

MODEL 1100™ / 11-87™ GAS SYSTEM KIT

- Genuine factory replacement parts
- Nickel-plated piston/piston seal
- Teflon®-coated barrel seals

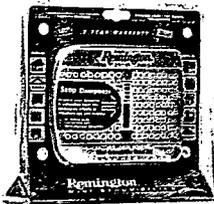

Order No. 19258

GUN STORAGE

MODEL 365 MINI DEHUMIDIFIER

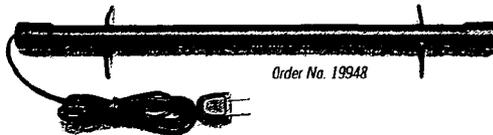

- Protects 30-60 days before recharging is necessary
- Self-contained unit requires no wiring or extension cords
- Recharges easily in a few hours
- 5 year warranty

Order No. 19950 – Clampack

16" PLUG-IN DEHUMIDIFIER

- Works by gently warming the air inside your safe which helps in minimizing moisture
- 6' cord comes with easily assembled plug to allow installation using a small hole in back of safe
- Protects even up to 200 cubic feet – more than enough for the largest gun safes

Order No. 19948

REM DRI™ 35 DESICCANT

- Removes moisture to prevent rust corrosion and eliminates odors in gun safes and cabinets
- No electricity required, easy to read indicator
- Rechargeable for multiple uses, non-toxic
- Protects up to 35 cu. ft. of enclosed space

Order No. 19952 – Clampack

THREE-PACK TRIGGER BLOCKS

Single Trigger Block also available (Order No. 18491)

Order No. 19439

CABLE LOCK

- Fits most shotguns, rifles and pistols
- California approved

Order No. 18364

Weights, stock dimensions, checkering pattern and wood grain may vary according to the individual firearm. Remington reserves the right to change or modify its products without notice. Pricing may vary by model, specification, color, size and availability. Follow the safety rules printed in firearms instruction books and on ammunition boxes. If you do not have an instruction book for your Remington firearm, write to Remington Arms Company, Inc., 870 Remington Drive, PO Box 700, Madison, NC 27025, for a free copy or visit our website at www.remington.com/manuals. Please specify the model and serial number. The firearms herein have been photographed with their actions closed to properly showcase their features. In actual practice, any firearm not in use must be left with ammunition removed, action open and safety on. Consumer Information, Arms Service, Parts and Repairs and Custom Shop: (800) 243-9700.
