PREMIER CORE-LOKT ULTRA

- Remington R&D designed using the latest in bonded bullet technology
- Features and Benefits**
 - Accuracy**
 - Results from uniform jacket thickness and concentricity
 - Weight Retention**
 - Bonded bullet technology gives your customer an average of over 85% weight retention on even the toughest game
 - Reliable Expansion**
 - Computer engineered jacket design and bonded bullet technology give your customer an average of 1.8x diameter expansion over a broad range of distances

PREMIER AccuTip

- The ultimate medium sized game bullet
- Features and Benefits**
 - Accuracy**
 - The gold polymer tip, boat tail base, and proprietary jacket design make this the most accurate polymer-tipped bullet on the planet.
 - Reliable Expansion:**
 - This bullet is designed to offer instant, devastating expansion at the point of impact
 - Weight Retention:**
 - AccuTip bullets feature an innovative ring near the base of the bullet that prevents jacket/core separation and results in the best average weight retention in its class
 - Average 65% weight retention through water into a steel plate vs. 35% from the nearest competitor
