Subject: 710 Return

Gentlemen, R&D is returning 10 M/710 rifles RAMAC 27414, they will ship today.

RGA # 60046270

DMS Transfer # T700000662 (to Mayfield Plant SAP)

These are the remaining 10 guns from the 12 that were tested for the new extractor rivet process. They have from 100 to 400 rounds on them and are tagged as such. They are all in good condition, however when these guns were tested some of them had hard bolt closing issues. The first two guns were returned some time back to Derek Boyles to investigate the bolt closing issues.

Thanks,

Phillip
