

What Makes the Model 700 Great?

"Three Rings of Steel" (See Picture 4)

1. Cartridge head is enclosed by the recessed bolt face
2. Bolt face locks up inside the counter-bored breech of the barrel
3. Barrel breech is surrounded by the receiver

The Result is Unparalleled Strength Exhibited by the Remington Action!

(Note: Three Rings of Steel Applies to Model Seven, Model 673, and Model 710)
