Subject to Protective Order - Williams v. Remington

CONFIDENTIAL

Section	Question	Answer
	Is the Model 700 a safe firearm?	Yes, for nearly 40 years, the Remington Model 700 bolt-action rifle has been one of America's premier hunting rifles. Over 4 million Model 700 of these rifles have been sold to hunters, target shooters and law enforcement agencies across the United States. Like any gun it must be used following the rules of safe gun handling, including proper maintenance, and not inappropriately altered, the Remington Model 700 is a safe rifle. We suggest that you go to "the safety center" on our website www.remington.com .
	Why did we put a special section on our website for bolt lock?	The internet is the most efficient way to reach a large part of the user base with up to date information. In light of the Barber tragedy we thought it was appropriate to remind shooter of firearms safety. Additionally we have rolled out other safety related sections (see website: - 10 commandments course - Shotgun safety section - Blackpowder safety - Ammunition safety - Tree Stand safety - Safety product we sell - Education links for local safety courses It will be updated with more safety related information on an ongoing basis and the key section will be rotated based on the hunting season we Making quality firearms that can be used reliably and safely has always been important to Remington. Focusing on safety on the website is part of that long time concern. The safety section will be updated on an ongoing basis and the key topic will be rotated based on the current hunting season
