

Remington Arms Co., Inc.
Q&A on Model 700

Section	Question	Answer
	Why did we put up a safety section on our website?	<p>Making quality firearms that can be reliably and safely used has always been important at Remington. Focusing on safety on the website is part of that long time concern. Additionally, we have rolled out other safety related sections. See website for the following sections:</p> <ul style="list-style-type: none"> - 10 commandments course - Shotgun safety section - Blackpowder safety - Ammunition safety - Tree Stand safety - Safety products we sell - Education links for local safety courses - <p>The safety section will be updated on an ongoing basis and the key topic will be rotated based on the current hunting season</p>
Cleaning	How should I clean my gun?	See cleaning instructions, website and owners manual/instruction booklet
	What should I use when I clean my gun?	See cleaning instructions, website and owners manual/instruction booklet
Repair and Checkup services	Where can I take the gun to have it checked out? Obsolete Current production model	<p>You have two choices:</p> <ol style="list-style-type: none"> 1. You should have the firearm checked out by a qualified gunsmith. We can help refer you to one or you can look in your local telephone book. 2. Or you could send it back to us at the factory and we would be glad to look at it for you: <p>Remington Arms Co., Inc. Attn: Arms Service Division - TPA 14 Hoefler Avenue Ilion, NY 13357</p> <p>Please go to our website and fill out the factory repair form and include it with the firearms when you send it back to us.</p> <p>Note: Remind people that they should have the guns checked out periodically by a qualified gunsmith</p> <p>NOTE: An obsolete gun may not be repairable</p>
