Dear Duane,  
Our gunsmiths will determine if there would be any charges once they have the opportunity to evaluate your firearm. If the repairs are \$75 or less, they do the work and send the firearm back to you. If it is over \$75, they will send you a written quote. Most repairs take an average of 4-8 weeks. We recommend removing any accessories before shipping.

Is there a charge to have the gun repaired??  
Do I need to remove the scope?? How long will the rifle be gone?? Duane
